"Born in the cauldron of personal experience of suffering and healing and honed through years of professional experience, this book will help anyone understand the attractors of love and consequent suffering. I recommend it to couples who are mystified by the depth and repetition of their pain and joy and to therapists whose destiny is to help them."

~ Harville Hendrix, Ph.D., co-author with Helen LaKelly Hunt of *Making Marriage Simple: Transform the Relationship you Have Into the Relationship you Want* Since the dawn of civilization, men and women have been magnetically and irresistibly drawn together into romantic relationships, not so much by what they see, feel and think, but more by invisible forces. When individuals with healthy emotional backgrounds meet, the irresistible "love force" creates a sustainable, reciprocal and stable relationship. Codependents and emotional

manipulators are similarly enveloped in a seductive dreamlike state; however, it will later unfold into a painful “seesaw” of love, pain, hope and disappointment. The soul mate of the codependent’s dreams will become the emotional manipulator of their nightmares. Readers of the Human Magnet Syndrome will better understand why they, despite their dreams for true love, find themselves hopelessly and painfully in love with partners who hurt them. This book will guide and inspire both the layman and the professional. A psychotherapist’s guide to codependency, narcissism, the treatment of narcissistic abuse, and achieving healthy love from yourself and others. Since the dawn of civilization, people have been magnetically and irresistibly drawn together, not so much by what they see, feel, and think, but more by invisible, unconscious romantic forces. This seductive, alluring, and seemingly impossible-to-avoid love force is the Human Magnet Syndrome. It bends oppositely-matched partners in a breakup-resistant, rollercoaster-like relationship. Magnetic-like attraction, or “chemistry,” brings codependents and narcissists together in an enchanting fantasy that can never be sustained. Given time, a codependent’s soulmate dreams will predictably melt away, leaving them with the cellmate reality. This revised and updated, breakthrough book not only explains why codependents habitually fall prey

to harmful and manipulative narcissists, but also why they predictably sabotage their dreams for freedom, happiness, and self-love. Rosenberg's pioneering work on relationships, codependency, and narcissism is a necessary road map for receiving healthy love—both from others and ourselves. Praise for *The Human Magnet Syndrome* “I recommend *The Human Magnet Syndrome* to those who work in social services, education, chemical dependency, or the counseling fields and to the people they touch. It's time to wake up and this brilliant book sounds the alarm we need.”—Melody Beattie, bestselling author of *Codependent No More* “This book will help anyone understand the attractors of love and consequent suffering. I recommend it to couples who are mystified by the depth and repetition of their pain, and to therapists whose destiny is to help them.”—Harville Hendrix, bestselling co-author of *Getting the Love You Want* and creator of *Imago Relationship Therapy*

In response to the coronavirus disease 2019 (COVID-19) pandemic and the societal disruption it has brought, national governments and the international community have invested billions of dollars and immense amounts of human resources to develop a safe and effective vaccine in an unprecedented time frame. Vaccination against this novel coronavirus, severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2), offers the possibility of significantly reducing severe morbidity and mortality and transmission when deployed alongside other public health strategies and improved therapies. Health equity is intertwined with the impact of COVID-19 and there are certain populations that are at increased risk of severe illness or death from COVID-19. In the United States and worldwide, the pandemic is having a disproportionate impact on people who are already disadvantaged by virtue of their race and ethnicity, age, health status, residence, occupation, socioeconomic condition, or other contributing factors. Framework for Equitable Allocation of COVID-19 Vaccine offers an overarching framework for vaccine allocation to assist policy makers in the domestic and global health communities. Built on

widely accepted foundational principles and recognizing the distinctive characteristics of COVID-19, this report's recommendations address the commitments needed to implement equitable allocation policies for COVID-19 vaccine.
