Twenty-one works from “one of the most brilliant, innovative, and eloquent writers on earth,” including the award-nominated novella *Mefisto in Onyx* (Publishers Weekly). Harlan Ellison celebrates four decades of writing and publishes his seventieth book, this critically acclaimed, wildly imaginative, and outrageously creative collection. The Edgar Award–nominated novella *Mefisto in Onyx* is the centerpiece, surrounded by screenplays, an introduction by the author, interspersed segments of autobiographical narrative, and such provocatively titled entries as “The Man Who Rowed Columbus Ashore,” “Anywhere But Here, With Anybody But You,” “Crazy As a Soup Sandwich,” “Chatting With Anubis,” “The Dragon on the Bookshelf,” (written in collaboration with Robert Silverberg), “The Dreams a Nightmare Dreams,” “Pulling Hard Time,” and “Midnight in the Sunken Cathedral.”

Drawing on new scholarship, the Pulitzer Prize-winning author of *The Woman Behind the New Deal* presents a biography of Isabella of Castile, the controversial Queen of Spain who sponsored Christopher Columbus' journey to the New World, established the Spanish Inquisition and became one of the most influential female rulers in history. This impeccably researched and “adventure-packed” (The Washington Post) account of the obsessive quest by Christopher Columbus’s son to create the greatest library in the world is “the stuff of Hollywood blockbusters” (NPR) and offers a vivid picture of Europe on the verge of becoming modern. At the peak of the Age of Exploration, Hernando Colón sailed with his father Christopher Columbus on his final voyage to the New World, a journey that ended in disaster, bloody mutiny, and shipwreck. After Columbus’s death in 1506, eighteen-year-old Hernando sought to continue—and surpass—his father’s campaign to explore the boundaries of the known world by building a library that would collect everything ever printed: a vast holding organized by summaries and catalogues; really, the first ever database for the exploding diversity of written matter as the printing press proliferated across Europe. Hernando traveled extensively and obsessively amassed his collection based on the groundbreaking conviction that a library of universal knowledge should include “all books, in all languages and on all subjects,” even material often dismissed: ballads, erotica, news pamphlets, almanacs, popular images, romances, fables. The loss of part of his collection to another maritime disaster in 1522, set off the final scramble to complete this sublime project, a race against time to realize a vision of near-impossible perfection. “Magnificent...a thrill on almost every page” (The New York Times Book Review), *The Catalogue of Shipwrecked Books* is a window into sixteenth-century Europe’s information revolution, and a reflection of the passion and intrigues that lie beneath our own insatiable desires to bring order to the world today.

The story of an uncovered voyage as colorful and momentous as any on record for the Age of Discovery--and of the Black mariner whose stunning accomplishment has been until now lost to history It began with a secret mission, no expenses spared. Spain, plotting to break Portugal's monopoly trade with the fabled Orient, set sail from a hidden Mexican port to cross the Pacific--and then, critically, to attempt the never-before-accomplished return, the *vuelta*. Four ships set out from Navidad, each one carrying a dream team of navigators. The smallest ship, guided by seaman Lope Martín, a mulatto who had risen through the ranks to become one of the most qualified pilots of the era, soon pulled far ahead and became mysteriously lost from the fleet. It was the beginning of a voyage of epic scope, featuring mutiny, murderous encounters with Pacific islanders, astonishing physical hardships--and at last a triumphant return to the New World. But the pilot of the fleet's flagship, the Augustine friar mariner Andrés de Urdaneta, later caught up with Martín to achieve the *vuelta* as well. It was he who now basked in glory, while Lope Martín was secretly sentenced to be hanged by the Spanish crown as repayment for his services. Acclaimed historian Andrés Reséndez, through brilliant scholarship and riveting storytelling--including an astonishing outcome for the resilient Lope Martín--sets the record straight.

The voyage of discovery, 1492. This book represents a great historian's final word on his lifelong hero.

A Taino Indian boy on the island of San Salvador recounts the landing of Columbus and his men in 1492.

For the past three decades, many history professors have allowed their biases to distort the way America’s past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America’s patriots and the achievements of “dead white men.” As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. *A Patriot’s History of the United States* corrects those doctrinaire biases. In this groundbreaking book, America’s discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America’s true and proud history.

The Year is 1500. Christopher Columbus, stripped of his title Admiral of the Ocean Seas, waits in chains in a Caribbean prison built under his orders, looking out at the colony that he founded, nurtured, and ruled for eight years. Less than a decade after discovering the New World, he has fallen into disgrace, accused by the royal court of being a liar, a secret Jew, and a foreigner who sought to steal the riches of the New World for himself. The tall, freckled explorer with the aquiline nose, whose flaming red hair long ago turned gray, passes his days in prayer and rumination, trying to ignore the waterfront gallows that are all too visible from his cell. And he plots for one great escape, one last voyage to the ends of

the earth, one final chance to prove himself. What follows is one of history's most epic -- and forgotten -- adventures. Columbus himself would later claim that his fourth voyage was his greatest. It was without doubt his most treacherous. Of the four ships he led into the unknown, none returned. Columbus would face the worst storms a European explorer had ever encountered. He would battle to survive amid mutiny, war, and a shipwreck that left him stranded on a desert isle for almost a year. On his tail were his enemies, sent from Europe to track him down. In front of him: the unknown. Martin Dugard's thrilling account of this final voyage brings Columbus to life as never before--adventurer, businessman, father, lover, tyrant, and hero.

Columbus left Spain in 1492 thinking that he could reach China by sailing west across the Atlantic Ocean. When he reached land after five weeks, he thought he had discovered a new route to the East Indies. It was not until much later that people realized

Controlling Accounts.--The addition of special columns in books of original entry makes possible the keeping of Controlling Accounts. The most common examples of such accounts are Accounts Receivable account and Accounts Payable account. These summary accounts, respectively, displace individual customers' and creditors' accounts in the Ledger. The customers' accounts are then segregated in another book called the Sales Ledger or Customers' Ledger, while the creditors' accounts are kept in the Purchase or Creditors' Ledger. The original Ledger, now much reduced in size, is called the General Ledger. The Trial Balance now refers to the accounts in the General Ledger. It is evident that the task of taking a Trial Balance is greatly simplified because so many fewer accounts are involved. A Schedule of Accounts Receivable is then prepared, consisting of the balances found in the Sales Ledger, and its total must agree with the balance of the Accounts Receivable account shown in the Trial Balance. A similar Schedule of Accounts Payable, made up of all the balances in the Purchase Ledger, is prepared, and it must agree with the balance of the Accounts Payable account of the General Ledger." The Balance Sheet.--In the more elementary part of the text, the student learned how to prepare a Statement of Assets and Liabilities for the purpose of disclosing the net capital of an enterprise. In the present chapter he was shown how to prepare a similar statement, the Balance Sheet. For all practical...
