Contemporary old age is fraught with contradiction and complexity—women portrayed either as incompetent and cuddly grandmothers or as young women trapped in old bodies, images that rarely reflect how women actually see themselves. *Women in Late Life* explores the thorny issues related to gender and aging, including prevailing but

problematic cultural expectations, body image, ageism, the experience of chronic illness, threats to Social Security and the very possibility of a secure retirement while challenging a long-term care system that disadvantages women. Author Martha Holstein writes from a critical feminist perspective, drawing on her many years of experience in gerontology, as well as interviews and personal experience as a woman now in her seventies. The book highlights how women's experience of late life is shaped by the effects of lifelong gender norms, by contemporary culture—from gender stereotypes to ageism—and by the political context. The book blends critique with proposals aimed at resisting damaging inequities resulting from being simultaneously old and a woman. She focuses on changes needed on multiple levels—societal, cultural, political, and individual. This interdisciplinary look at key questions around gender and aging is nuanced and beautifully written.

A beacon of creativity with boundless energy, Chase Jarvis is well known as a visionary photographer, director, and social artist. In *The Best Camera Is The One That's With You*, Chase reimagines, examines, and redefines the intersection of art and popular culture through images shot with his iPhone. The pictures in the book, all taken with Chase's iPhone, make up a visual notebook—a photographic journal—from the past year of his life. The book is full of visually-rich iPhone photos and peppered with inspiring anecdotes. Two megapixels at a time, these images have been gathered and bound into a book that represents a stake in the ground. With it, Chase underscores the idea that an image can come from any camera, even a mobile phone. As Chase writes, "Inherently, we all know that an image isn't measured by its resolution, dynamic range, or anything technical. It's measured by the simple—sometimes profound, other times absurd or humorous or whimsical—effect that it can have upon us. If you can see it, it can move you." This book is geared to inspire everyone, regardless of their level of photography knowledge, that you can capture moments and share them with our friends, families, loved ones, or the world at the press of a button. Readers of *The Best Camera Is The One That's With You* will also enjoy the iPhone application Chase Jarvis created in conjunction with this book, appropriately named *Best Camera*. *Best Camera* has a unique set of filters and effects that can be applied at the touch of a
