One of The Christian Science Monitor's ten best books of June An innovative biography of Edgar Allan Poe—highlighting his fascination and feuds with science. Decade after decade, Edgar Allan Poe remains one of the most popular American writers. He is beloved around the world for his pioneering detective fiction, tales of horror, and haunting, atmospheric verse. But what if there was another side to the man who wrote “The Raven” and “The Fall of the House of Usher”? In *The Reason for the Darkness of the Night*, John Tresch offers a bold new biography of a writer whose short, tortured life continues to fascinate. Shining a spotlight on an era when the lines separating entertainment, speculation, and scientific inquiry were blurred, Tresch reveals Poe’s obsession with science and lifelong ambition to advance and question human knowledge. Even as he composed dazzling works of fiction, he remained an avid and often combative commentator on new discoveries, publishing and hustling in literary scenes that also hosted the era’s most prominent scientists, semi-scientists, and pseudo-intellectual rogues. As one newspaper put it, “Mr. Poe is not merely a man of science—not merely a poet—not merely a man of letters. He is all combined; and perhaps he is something more.” Taking us through his early training in mathematics and engineering at West Point and the tumultuous years that followed, Tresch shows that Poe lived, thought, and suffered surrounded by science—and that many of his most renowned and imaginative works can best be understood in its company. He cast doubt on perceived certainties even as he hungered for knowledge, and at the end of his life delivered a mind-bending lecture on the origins of the universe that would win the admiration of twentieth-century physicists. Pursuing extraordinary conjectures and a unique aesthetic vision, he remained a figure of explosive contradiction: he gleefully exposed the hoaxes of the era’s scientific fraudsters even as he perpetrated hoaxes himself. Tracing Poe’s hard and brilliant journey, *The Reason for the Darkness of the Night* is an essential new portrait of a writer whose life is synonymous with mystery and imagination—and an entertaining, erudite tour of the world of American science just as it was beginning to come into its own.

A unique luxury edition of some of Edgar Allan Poe's famous short stories, *Tales of the Macabre* takes the reader into the heart of a dozen stories, including *The Fall of The House of Usher*, *Berenice*, and *The Black Cat*...all beautifully illustrated by Benjamin Lacombe. Includes Charles Baudelaire's essay on Poe's life and works.

One of E. A. Poe’s more horror-oriented stories, "The Facts in the Case of Mr. Valdemar" presents the author’s obsession with death, scientific experiments, and resurrection. Playing around with forbidden and unscientific methods, Poe vehemently tries to exhibit his own medical knowledge to the reading public, asking for some sort of pardon for the horrific and disgusting end of his experiment. The depiction of gore and "detestable putrescence" paves the way for another master of American horror, H. P. Lovecraft, whose dream journeys and loathsome descriptions owe a great debt to Poe’s story. Edgar Allan Poe (1809-1849) was an American poet, author, and literary critic. Most famous for his poetry, short stories, and tales of the supernatural, mysterious, and macabre, he is also regarded as the inventor of the detective genre and a contributor to the emergence of science fiction, dark romanticism, and weird fiction. His most famous works include "The Raven" (1845), "The Black Cat" (1843), and "The Gold-Bug" (1843).

Seminar paper from the year 2021 in the subject American Studies - Literature, grade: 1,0, Humboldt-University of Berlin (Amerikanistik/Anglistik), course: Paradigms of American Literature: E.A. Poe, language: English, abstract: In this paper, I will examine the numerous symbols of transience Poe uses in "The Masque of the Red Death" and analyze what they represent and how they contribute or influence the plot of the story. Therefore, I will refer to the work of various literary and social scientists and critics such as Jeffrey Meyers and Sabrina Laurent, but also other scholars from different fields. In addition, I will depict that the events within the short story are intended to give an insight into the negative behavior of humans in order to serve as an example of what morally reprehensible behavior can result in. Nowadays it is common knowledge that Edgar Allan Poe is one of the most famous representatives when it comes to the involvement of personal experiences and the placement of hidden symbols in short stories and poems. The Masque of the Red Death is no exception and also represents one of Poe's most popular tales. It first appeared in *Graham's Magazine* in May 1842 and, due to the time it was written, was part of the so-called "Masquerades" along with three other of Poe's stories. The short story contains a decent amount of symbolism and has therefore often been interpreted differently by many literary scholars over the past years. It was investigated where the origins of the story may lie, which parallels can be drawn to the real world, what basically inspired the story and what morals can be derived from it. But many attempts have also been made to identify the true nature of the disease of the same name. Therefore, the variety of publications on this work is very broad and thus offers different answers and analysis approaches. Still, it is certain that the short story follows many traditions of Gothic fiction and is often analyzed as an allegory about the inevitability of death.

The #1 New York Times–bestselling author’s story about life at the Citadel in the 1960s, a profound exploration of what it means to be a man of honor. Lt. Col. Nugent Courvoisier, known to the cadets as “the Boo,” is an imposing and inspiring leader at the South Carolina military academy, the Citadel. A harsh disciplinarian but a compassionate mentor, he guides and inspires his young charges. Cadet Peter Cates is an anomaly. He is a gifted writer, a talented basketball player, and a good student, but his outward successes do little to impress his abusive father. The Boo takes Cates under his wing, but their bond is threatened when they’re forced to confront an act of violence on campus. Drawn from Pat Conroy’s own experiences as a student at the Citadel, *The Boo* is an unforgettable story about duty, loyalty, and standing up for what is right in the face of overwhelming circumstances.

Drawing on the latest debates in ecocritical theory and sustainability studies, *Literature as Cultural Ecology: Sustainable Texts* outlines a new approach to the reading of literary texts. Hubert Zapf considers the ways in which literature operates as a form of cultural ecology, using language, imagination and critique to challenge and transform cultural narratives of humanity's relationship to nature. In this way, the book demonstrates the important role that literature plays in creating a more sustainable way of life. Applying this approach to works by writers such as Emily Dickinson, Edgar Allan Poe, Herman Melville, William Faulkner, Toni Morrison, Zakes Mda, and Amitav Ghosh, *Literature as Cultural Ecology* is an essential contribution to the contemporary environmental humanities.

A beautiful new edition of Hugh Hood's debut story collection. It all started toward the end of the 1930s, when the young Hugh Hood serviced a flourishing Saturday Evening Post delivery route with more than fifty weekly customers. That was where the author-to-be first encountered the short story, in the fiction of the famous magazine writers Damon Runyon, Guy Gilpatric, Arthur Train, and the master of them all, P.G. Wodehouse. Hood would go on to write several novels and short story collections. Perhaps more importantly, he would be a founding member of the now-legendary Montreal Story Tellers group. Reissued here on its 55th anniversary, Hood's first collection of short fiction, *Flying a Red Kite* contains some of his most well-known short fiction, from the post-apocalyptic visions of "After the Sirens" to the Faulknerian portrait of rural Ontario in "Three Halves of a House." *Flying a Red Kite* is an essential window into the work of a major and unique Canadian talent.

It is generally grouped together with three other of Poe's stories, namely "King Pest," which first appeared in the *Southern Literary Messenger* in September 1835, "The Cask of Amontillado," published in *Godey's Magazine and Lady's Book* 33 in 1846, and "Hop-Frog," published in *The Flag of Our Union* in 1849. Since all these stories take place during the carnival season, they are called "The Masquerades." In her book "The Life and Works of Edgar Allan Poe. A Psycho-Analytic Interpretation," Marie Bonaparte takes a Freudian approach to Poe's stories, Sigmund Freud himself wrote the preface, and claims that all the above tales are connected to Poe's father complex [Bonaparte; 507]. In her interpretation of "The Masque of the Red Death," the figure of the Red Death is an incorporation of the father who returns to punish the son. This is just one reading of the story. Much has been published about "The Masque of the Red Death," one of Poe's most read tales. Scholars have tried to find its roots, like Burton R. Pollin, who assumes that Poe used his own "Shadow - A Parable" as a source for "The Masque of the Red Death." Others attempted to compare the story of Prince Prospero and his followers to other great works of art, for example Christopher Brown, who saw parallels between "The Masque of the Red Death" and Henry James's *The Portrait of a Lady*. A lot of research has also been done on the narrator of the tale - I will only elaborate on the most plausible theories on who it is that is telling this tale. A representative of Poe's tales of the sea, "Ms. Found in a Bottle" follows the writer's infatuation with the horrific and unknown forces around us. An avid reader just like his creator, the narrator finds solace

Often claimed to be among the first modern detective stories written, "The Murders in the Rue Morgue" exemplifies Poe's interest in the workings of the mind when facing cases that need to be solved. C. Auguste Dupin, the protagonist, is the forefather of all great detectives such as Sherlock Holmes, Hercule Poirot, and Philip Marlowe. Different from Poe's terror or horror-laden tales, the story nonetheless abounds in strange occurrences and horrific depictions. It has been made into several movie and TV adaptations, as well as radio programmes. Edgar Allan Poe (1809-1849) was an American poet, author, and literary critic.
