'I believe that 'emotion' is where it's at' Tom Peters For far too long, emotions have been ignored in favour of rationality and efficiency, but breakthroughs in brain science have revealed that people are primarily emotional decision-makers. Many companies have not yet accepted that fact, much less acted on it. In this fully revised edition, Emotionomics will help you to understand emotions in terms of business opportunities - both in the marketplace and in the workplace. In today's highly competitive marketplace where many products look alike, it is the emotional benefit that can make the difference. At the same time, companies with

engaged, productive work forces will undoubtedly achieve competitive advantage. Dan Hill's book draws on insights gathered through facial coding, the single best viable means of measuring and managing the emotional response of customers and employees, to help you to leverage emotions for business success in terms of branding, product design, advertising, sales, customer satisfaction, leadership and employee management. Emotions matter and Emotionomics will help you to step closer to customers and employees, but step ahead of your competitors.

An instant classic, this revised and updated edition of the phenomenal bestseller dispels the myths about starting your own business. Small business consultant and author Michael E. Gerber, with sharp insight gained from years of experience, points out how common assumptions, expectations, and even technical expertise can get in the way of running a successful business. Gerber walks you through the steps in the life of a business—from entrepreneurial infancy through adolescent growing pains to the

mature entrepreneurial perspective: the guiding light of all businesses that succeed—and shows how to apply the lessons of franchising to any business, whether or not it is a franchise. Most importantly, Gerber draws the vital, often overlooked distinction between working on your business and working in your business. The E-Myth Revisited will help you grow your business in a productive, assured way.

"The franchise agreement is the document that establishes the franchise relationship. This business relationship is characterized by a franchisor granting a franchisee a temporary or time-limited right to use the franchisor's system and trademarks to conduct business. Because there is no 'one size fits all' template for drafting a franchise agreement, this must-have resource provides proven guidance on the core issues covered by a well-drafted agreement and how to carefully analyze the many considerations involved."--

Franchising is one of the fastest and most popular means of business expansion. At the core of franchising is the licensing of intellectual property rights. "Space is vast, dark, and not your friend. Gamma rays and neutrino bursts erupt from dying stars to cook you alive, black holes tear you apart, and the void itself boils your blood and seizes your brain. Try to scream and no one can hear you - hold your breath and you rupture your lungs. Space isn't as empty as you'd think, either - its frontiers are ever expanding. Rival governments wage a cold war of aggression while greedy corporations vie for valuable resources. Colonists reach for the stars and gamble with their lives - each new world tamed is either feast or famine. And there are things lurking in the shadows of every asteroid - things strange and different and deadly. Things alien. This is the official ALIEN tabletop roleplaying game - a universe of body horror and corporate brinkmanship, where synthetic people play god while space truckers and marines serve host to newborn ghoulish creatures. It's a harsh and unforgiving universe and you are nothing if not expendable. Stay alive if you can"--Back cover.

The bestselling author of phenomenally successful and continually vital *The E-Myth Revisited* presents the next big step in entrepreneurial management and leadership with *E-Myth Mastery*. A practical, real-world program that is implemented real-time into your business, Gerber begins by engaging the reader in understanding why the entrepreneur is so critical to the success of any enterprise, no matter how small or large it may be, and why the mindset of an entrepreneur is so integral to the operating reality of the organization, of the small business, and the enterprise. He then covers seven essential skills: Leadership Marketing Money Management Lead Conversion Lead

Generation Client Fulfilment Each of these seven skills is presented through a specific training module with corresponding tests and exercises that explain the content and principles to be learned, provide case studies and examples, as well as worksheets for applying those ideas to the business. Gerber ties it all together by helping readers put the pieces together in an E-Myth Business, an E-Myth Practice and an E-Myth Enterprise. This is the book that will show you the difference between being an entrepreneur versus doing a job, how to get money when the bank won't give it to you, how to expand your customer base when big business moves in down the street, how to develop the best people when you can't afford to pay them competitive wages, how to increase the predictability of what your business is able to promise, and then how to keep that promise, every single time, no matter where you are or what you're doing. Mastery is a business development program that helps you turn your company into a world-class operation...into a turn-key money machine!

Buying a franchise may be the road to financial independence but only if you can find a great franchise that is a great 'fit' for you. In the past decade I've spoken with many people who say they no longer want to work for someone else. They're tired of the uncertainty that goes along with corporate jobs and of creating financial rewards for others. These are people who want to be in control of their future. Contrary to the thinking of some, being a successful franchise owner requires a lot more than just plopping down a pile of money and waiting for the profits to roll in. I know many franchise owners; some are extremely successful while others struggle. In most cases the difference between the two groups is not due to the skill or dedication of the owner, but his/her 'fit' with the franchise system. During my years as both an owner and broker of franchised businesses, I'm frequently asked how to find a great 'fitting' franchise. Without realizing it I developed rules that help guide my clients to find that great 'fit.
