Did you miss the gold and silver spike runs to \$1900 and to \$50 in 2011? Did you get in near the top and ride them all the way down into the December 2015 lows? Or perhaps you didn't buy at all, and by late 2016, while the most explosive precious metals and mining stock run-up in decades was taking place, you watched. You may think you've missed the boat. But you would be wrong. David Morgan's research has shown decisively that as much as "90% of the profit potential for the metals and miners become available during the last 10% of the entire bull run." But only if you avoid what he calls "the amateur's mindset." *Second Chance: How to Make and Keep Big Money from the Coming Gold and Silver Shock Wave* empowers you to step onto the investment battlefield and leave it a winner. Many people will make fortunes during the coming years. On paper. But, when all is said and done, as the great speculator Jesse Livermore declared, "On paper it will remain."

With a foreword by Richard Thaler, winner of the Nobel Prize in Economics! New Updated Edition, 2019. Dr David Halpern, behavioural scientist and head of the government's Behavioural Insights Team, or Nudge Unit, invites you inside the unconventional, multi-million pound saving initiative that makes a big difference through influencing small, simple changes in our behaviour. Using the application of psychology to the challenges we face in the world today, the Nudge Unit is pushing us in the right direction. This is their story.

Our decisions determine our lives. Invest in a company that goes bankrupt and you lose your life savings. Say the wrong thing in an interview and you miss the job of the lifetime. Make no decisions and you miss every opportunity. In today's rapidly changing world, the cost of poor decisions (and no decisions) is higher than ever. In *How to Make Good Decisions Wisely*, author and scholar Alan Ehler lays out a clear approach to making big decisions based on the Bible and recent discoveries in neuroscience

and decision science. He presents a simple, four-step process that can be followed to make any kind of decision, whether personal, professional, or relational. Making big decisions can rewrite lives, careers, families, churches, and businesses. A lot is at stake. Learn how to choose well.

We hear a lot about "Flipping Houses" these days and there are all kinds of shows on television about it, but can it be as easy as it looks? Flipping a house is when a real estate investor (the buyer) buys a home that is in foreclosure, really cheap or usually at an auction, fixes it up and resells the house at a great profit! There is a ton of money to be made in house flipping but beware. You need to put the effort into educating yourself before you begin because a few common mistakes can cost you big time! Today's market is ripe for house flipping and with some hard work, knowledge and a little luck there is a fortune to be made in this market. So let us take a look at how this all works.

This book reveals how anyone can skip the competition and get started with small apartments - whether new or experienced. Through detailed explanation and over 40 case studies, you'll learn how to make money by wholesaling, buying, and/or rehabbing small apartment buildings - using none of your own cash or credit, and with no prior experience. You will discover the step-by-step approaches for finding deals, qualifying deals, finding buyers, finding investors and monetizing your small apartment deals; plus how to scale-up to larger apartments. This book contains the know-how and the motivation for you to jump to the fast lane and start doing small apartment deals now. Since 2002, when he bought his first small apartment nothing-down, Lance Edwards has done apartment deals ranging from 3 units to nearly 300 units. And since 2007, he's also been teaching others how to escape the rat race faster and play bigger - by starting with small apartments.

An inspiring, practical and progress-oriented blueprint for energetic achievement. Amid constant swirl, uncertainty, and complexity is your team capable of doing big things? Too often people are pulled together, labeled a "team," given a directive, and expected to deliver results quickly. Soon, however, due to lack of focus, increasing pressures and competing priorities the team suffers from DSD: distracted, hopelessly stressed and disconnected from one another. Predictably, the team flatlines and the energy needed to succeed is lost. Based upon research of what successful teams do to overcome severe odds, Do Big Things presents an intuitive, seven-step process that equips teams with how to quickly and consistently operate in a manner necessary for success. Team members develop the self-awareness and ability to: Bring their best to every situation Bring out the best in others in every interaction Partner across the business to deliver common objectives Filled with practical tools and engaging stories of teams today, Do Big Things equips leaders with "the how" to quickly identify and activate the behaviors needed to achieve more than you or your team ever thought possible. Idea and information exchanges interlock the hand, head and heart of each team member to get everyone moving toward a common goal. Increasingly, individually and collectively, the team becomes emotionally stronger and more productive as they do their work. Do Big Things provides your team with the common language necessary to be authentic, empathetic and transparent, so that potential barriers to success come to light – faster. This empowers the team to be more accountable with an enterprise mindset, because they can have the profound discussions needed to adapt quicker to unforeseen challenges and demonstrate an innovative reflex. By applying the concepts in this book, the team's daily interactions are transformed, focus is sustained, and energetic progress toward your goals is triggered. Every member of your team wants to

This is the 3rd book in the best selling Music Production Secrets Series by John Rogers. Now that it's extremely affordable, hundreds of thousands of music enthusiasts around the world have created their own DAW home recording studio. Many have turned their passion into a career, or they're earning a lot of money with their home recording studio as a side job. In this book, I explain everything I did as a sound engineer to earn \$100,000 a year online, working from my home studio. I discuss working with customers which includes tips on how to beat the competition, the marketing techniques I used that brought in a huge amount of free traffic, and many business dos and don'ts I learned since opening my recording studio in 1999. I also mention several things YOU might want to try with your business that I know absolutely WILL NOT work, which will save you a lot of time and money. Whether you're starting out from scratch or already running your own recording studio business, this book will help you increase your profits.

How to create the change you want to see in the world using the paradigm-busting ideas in this "utterly fascinating" (Adam Grant) big-idea book.? Most of what we know about how ideas spread comes from bestselling authors who give us a compelling picture of a world, in which "influencers" are king, "sticky" ideas "go viral," and good behavior is "nudged" forward. The problem is that the world they describe is a world where information spreads, but beliefs and behaviors stay the same. When it comes to lasting change in what we think or the way we live, the dynamics are different: beliefs and behaviors are not transmitted from person to person in the simple way that a virus is. The real story of social change is more complex. When we are exposed to a new idea, our social networks guide our responses in striking and surprising ways. Drawing on deep-yet-accessible research and fascinating examples from the spread of coronavirus to the success of the Black Lives Matter movement, the failure of Google+, and the rise of political polarization, *Change* presents groundbreaking and paradigm-shifting new science for understanding what drives

This book describes a marketing and design approach called "total design," which is about not only making but marketing and promoting a good or service both successfully and profitably. It offers an integrated, holistic approach to the whole process. It's integrative because the design, marketing, and branding must give a clear and consistent story about the product. It's holistic because "total design" engages consumers on all levels.

**“AN IMPORTANT BOOK ABOUT MOTIVATION FROM A PROVEN MOTIVATOR.” —JACK WELCH** Yum! Brands CEO David Novak learned long ago that you can't lead a great organization of any size without getting your people aligned, enthusiastic, and focused relentlessly on the mission. But how do you do that? There are countless leadership books, but how many will actually help a Taco Bell shift manager, a Fortune 500 CEO, a new entrepreneur, or anyone in between? Over his fifteen years at Yum! Brands, Novak has developed a trademarked program—Taking People with You—that he personally teaches to thousands of managers around the world. He shows them how to make big things happen by getting people on their side. No skill in business is more important. And Yum!'s extraordinary success (at least 13 percent growth for each of the last ten years) proves his point. Novak knows that managers don't need leadership platitudes or business school theories. So he cuts right to the chase with a step-by-step guide to setting big goals, building strong teams, blowing past your targets, and celebrating after you shock the skeptics. And then doing it again and again until consistent excellence becomes a core element of your culture.

The problem that affects almost everyone today is being stuck in a career they hate. People are conditioned to work their lives away for someone else and only get paid for the hour they work. Anyone privileged with the knowledge of passive income in real estate rental properties will never have to work again. Whether you are a CEO of a corporation or a Janitor, you can learn how to never work again. In This Book You Will Learn How To Never Sell To The Wrong Person (What every Realtor, Attorney, FSBO, and Lender should know...) Two things you must do so you never sell to the wrong person. What to look for in credit reports on your prospective purchaser and what to do if your buyers credit is poor. Which types of credit blemishes you can overlook, and which ones NEVER to overlook. Why purchasing the right type of title insurance can save you from losing your investment. Think an owners policy is all you need? Think again! What is LTV and why it is the single most important thing for you to consider. How "property type" and "occupancy" can ultimately determine the resale value of your note - how to screen for the right buyer before you sell.

Protect and grow your finances with help from this definitive and practical guide to behavioral economics—revised and updated to reflect new economic realities. In their fascinating investigation of the ways we handle money, Gary Belsky and Thomas Gilovich reveal the psychological forces—the patterns of thinking and decision making—behind seemingly irrational behavior. They explain why so many otherwise savvy people make foolish financial choices: why investors are too quick to sell winning stocks and too slow to sell losing shares, why home sellers leave money on the table and home buyers don't get the biggest bang for their buck, why borrowers pay too much credit card interest and savers can't sock away as much as they'd like, and why so many of us can't control our spending. Focusing on the decisions we make every day, Belsky and Gilovich provide invaluable guidance for avoiding the financial faux pas that can cost thousands of dollars each year. Filled with fresh insight; practical advice; and lively, illustrative anecdotes, this book gives you the tools you need to harness the powerful science of behavioral economics in any financial environment.

Thanks to breakthroughs in production and food science, agribusiness has been able to devise new ways to grow more food and get it more places more quickly. There is no shortage of news items on hundreds of thousands of hybrid poultry – each animal genetically identical to the next – packed together in megabarns, grown out in a matter of months, then slaughtered, processed and shipped to the other side of the globe. Less well known are the deadly pathogens mutating in, and emerging out of, these specialized agro-environments. In fact, many of the most dangerous new diseases in humans can be traced back to such food systems, among them Campylobacter, Nipah virus, Q fever, hepatitis E, and a variety of novel influenza variants. Agribusiness has known for decades that packing thousands of birds or livestock together results in a monoculture that selects for such disease. But market economics doesn't punish the companies for growing Big Flu – it punishes animals, the environment, consumers, and contract farmers. Alongside growing profits, diseases are permitted to emerge, evolve, and spread with little check. “That is,” writes evolutionary biologist Rob Wallace, “it pays to produce a pathogen that could kill a billion people.” In Big Farms Make Big Flu, a collection of dispatches by turns harrowing and thought-provoking, Wallace tracks the ways influenza and other pathogens emerge from an agriculture controlled by multinational corporations. Wallace details, with a precise and radical wit, the latest in the science of agricultural epidemiology, while at the same time juxtaposing ghastly phenomena such as attempts at producing

featherless chickens, microbial time travel, and neoliberal Ebola. Wallace also offers sensible alternatives to lethal agribusiness. Some, such as farming cooperatives, integrated pathogen management, and mixed crop-livestock systems, are already in practice off the agribusiness grid. While many books cover facets of food or outbreaks, Wallace's collection appears the first to explore infectious disease, agriculture, economics and the nature of science together. Big Farms Make Big Flu integrates the political economies of disease and science to derive a new understanding of the evolution of infections. Highly capitalized agriculture may be farming pathogens as much as chickens or corn. It's time to get paid what you're truly worth Although you may not realise it, the knowledge and knowhow you have acquired in your life to date is a truly marketable asset. You've made valuable distinctions because of your passions and have unique empathy and understanding because of your pains. Through this book you will come to understand how other people are ready and willing to pay you money to know what you already know and to do what you can already do. You don't need to be qualified, certified or have letters after your name. Your qualification to do this work is your life experiences, your passion for helping others and your determination to make a difference. Andy Harrington has worked with Richard Branson, Tony Robbins, Robert Kiyosaki, Brian Tracy, Bob Proctor and even Former President of the United States Bill Clinton, and through this book he will show you how to find and shape the message inside of you, and importantly, in such a way that you get paid for sharing your advice. You will also discover how to: Position yourself as an expert so you are seen as an authority. Prepare your advice so it's easy for others to follow. Package your knowledge into programs, workshops, and books. Promote yourself intelligently so you get paid what you are really worth. Perform like a professional with confidence, congruency and charisma. In his debut book Andy shows you how to harness your experiences and turn them into advice for others whilst becoming a person of influence, impact and inspiration. "You have incredible untapped potential – residing within yourself – in your own talents and abilities. This book shows you how to achieve all your goals by focusing on making a difference with what you already have." Brian Tracy, Brian Tracy International

As a child, Biddu dreamt of going west and making it big as a composer. At the age of sixteen, he formed a band and started playing in a cafe in Bangalore, his home town, At eighteen, he was part of a popular act at Trinca's, a nightclub in Calcutta devoted to food, wine and music, At nineteen, he had college students in Bombay dancing to his music. In his early twenties, he left the country and ended up hitchhiking across the Middle East before arriving in London with only the clothes on his back and his trusty guitar. What followed were years of hardship and struggle but also great music and gathering fame. From the nine million selling "Kung Fu Fighting" to the iconic youth anthem of "Made in India" and the numerous hits in between. Biddu's music made him a household name in India and elsewhere. In this first public account of all that came his way: the people, the events, the music tours and companies Biddu writes with a gripping sense of humor about his remarkable journey with its fairy tale ending. Charming, witty, and entirely likable, Biddu is a man you are going to enjoy getting to know.
