The summer of 1985 changes Reggie's life. An awkward thirteen-year-old, she finds herself mixed up with the school outcasts. That same summer, a serial killer called Neptune begins kidnapping women. He leaves their severed hands on the police department steps and, five days later, displays their bodies around town. Just when Reggie needs her mother, Vera, the most, Vera's hand is found on the steps. But after five days, there's no body and Neptune disappears. Now, twenty-five years later, Reggie is a successful architect who has left her hometown and the horrific memories of that summer behind. But when she gets a call revealing that her mother has been found alive, Reggie must confront the ghosts of her past and find Neptune before he kills again.

A manuscript for a play that takes place about 1850 in the San Francesco prison in Naples.

In this exuberantly satirical novel, the tutor Atzbacher has been summoned by his friend Reger to meet him in a Viennese museum. While Reger gazes at a Tintoretto portrait, Atzbacher—who fears Reger's plans to kill himself—gives us a portrait of the musicologist: his wisdom, his devotion to his wife, and his love-hate relationship with art. With characteristically acerbic wit, Bernhard exposes the pretensions and aspirations of humanity in a novel at once pessimistic and strangely exhilarating. "Bernhard's . . . most enjoyable novel."—Robert Craft, *New York Review of Books*. "Bernhard is one of the masters of contemporary European fiction."—George Steiner

She's broken free. But danger is in hot pursuit. And rescue is nowhere in sight... Eve Duncan is on the run. She has no time to savour the victory of escaping from Jim Doane. He's back on her trail and closing in fast. At the mercy of the Colorado wilderness, she struggles to outwit him, but the odds are stacked high in his favour. Doane desperately needs Eve's skill to reconstruct the skull of his son - a sick and twisted killer who still holds Doane in thrall from beyond the grave - and like a man possessed, he refuses to let anything stand in his way. The CIA has its own reasons for tracking Eve's nemesis. And those closest to Eve - Joe Quinn and Jane MacGuire - are doing everything in their power to rescue her, while a hired gun named Lee Zander is on a personal mission to eliminate Doane. But with Zander's checkered history, can he be trusted to save Eve? Using everything from cutting-edge technology to animal whisperers, the hunt for Eve is on. And the hourglass is almost empty.

Eating nutritionally balanced, all-vegan meals can be a tough task—after all, broccoli doesn't come with food labels. Now, vegan readers don't have to question how wholesome their healthy food really is or how they'll add sufficient protein to their diet. The Daily Vegan Planner pairs twelve weeks of meal plans with journaling space to help new vegans follow a clear-cut strategy as they transition into their new lifestyle. Each day, readers will: eat four practical,

nutritious, and tasty vegan meals; track essential nutrients—from carbs and protein, to calcium and B12; record types of food they ate on a vegan food pyramid; and journal about food discoveries, daily challenges, and kitchen notes. From the moment they write their vegan mission statement to the time they debrief themselves on Week 12, readers will find themselves fully engaged in making a difference in their lives—and the world—one meal at a time.

Quantum Leadership: Transdisciplinary leadership in complex systems Quantum Leadership: Building Better Partnerships for Sustainable Health, Fourth Edition skillfully prepares graduate students to thrive in a world of healthcare reform, complexity, and essential caring service. The Fourth Edition focuses on the current concepts of leadership, data, and research related to the complexities of leadership. The text also emphasizes the importance of principle-driven approaches and minimizes specific procedure-based solutions. This text is a seminal work around the complexity leadership as it applies to healthcare. There are very few other references that have the clarity, depth, and detail essential to enumerate this topic in healthcare organizations. It is especially valuable for graduate programs and DNP programs as it provides a foundation for contemporary leadership and emphasizes the characteristics necessary to lead complex organizations. The Fourth Edition features an additional chapter on the complexity of leadership in health care reform in an effort to incorporate the newest requirements of the Patient Protection Affordable Care Act in a manner that is relevant to leadership development and capacity. Case studies found within each chapter help reinforce translational work while new application exercises found in the "The Quantum Workbook" are an excellent supplement for learning. Additional updates to the text include: chapter podcasts, additional translational and learning material related to chapter case studies. Lastly, all references have been revised and updated to reflect the most current evidence around learning leadership.

His unique vision first came to public attention more than forty years ago. The life's work of Norval Morrisseau, founder of the "Woodland" or "Legend" style of painting—now known as Anishnaabe painting—is showcased in some sixty works drawn from public and private collections across Canada.

Described is why the Islam gives African American women a sense of power and control over interpretations of gender, family, authority, and obligations. The author did her study among the women of the Sunni Muslim mosques in Los Angeles.

Bring STEM to life for students with zombies, rockets, celebrities, and more STEM to Story: *Enthralling and Effective Lesson Plans for Grades 5-8* inspires learning through fun, engaging, and meaningful lesson plans that fuse hands-on discovery in science, technology, engineering, and math (STEM) with creative writing. The workshop activities within the book are the innovative result of a partnership between 826 National's proven creative writing model and Time Warner Cable's Connect a Million Minds, an initiative dedicated to connecting young people to the wonders of STEM through hands-on learning. Authentically aligned with both the Common Core State Standards and the Next Generation Science Standards, this book provides teachers, after-school and out-of-school providers, and parents with field-tested lessons, workshops, and projects designed by professionals in each field. Including reflective observations by arts and science celebrities like Jon Scieszka, Mayim Bialik, and Steve Hockensmith, lessons feature bonus activities, fun facts, and teaching points for instructors at every level. These quirky, exploratory lessons will effectively awaken student imaginations and passions for both STEM and creative writing, encourage identity with scientific endeavors, and make both science and writing fun. Grades five through eight is the critical period for engaging students in STEM, and this book is designed specifically to appeal to – and engage – this age group. The guided curricula fosters hands-on discovery, deep learning, and rich inquiry skills while feeling more like play than school, and has proven popular and effective with both students and teachers. Awaken student imagination and get them excited about STEM Fuse creative writing with STEM using hands-on activities Make scientific principles relevant to students' lives Inspire students to explore STEM topics further The demand for STEM workers is closely linked to global competitiveness, and a successful future in STEM depends upon an early introduction to the scientific mindset. The challenge for teachers is to break through students' preconceptions of STEM fields as "hard" or "boring," to show them that STEM is everywhere, it's relevant, and it's loads of fun. For proven lesson plans with just a dash of weird, STEM to Story is a dynamic resource, adaptable and applicable in school, after school, and at home.

"There is nothing in England that exercises a more delightful spell over my imagination than the lingerings of the holiday customs and rural games of former times." So begins Irving's classic recital of Christmas traditions in 19th-century England. Originally part of *The Sketch Books of Geoffrey Crayon, Gent.*, which also included Irving's most famous stories, *Rip Van Winkle* and *The Legend of Sleepy Hollow*, *Old Christmas* depicts Irving's Christmas Eve trip by stagecoach to Yorkshire and the delightful holiday games and rituals he shared with his hosts at their home, Bracebridge Hall. Famed illustrator Randolph Caldecott's sketches provide a perfect complement to Irving's descriptions of holiday cheer.

EXPERIMENTS IN GENERAL CHEMISTRY, Sixth Edition, has been designed to stimulate curiosity and insight, and to clearly connect lecture and laboratory concepts and techniques. To accomplish this goal, an extensive effort has been made to develop experiments that maximize a discovery-oriented approach and minimize personal hazards and ecological impact. Like earlier editions, the use of chromates, barium, lead, mercury, and nickel salts has been avoided. The absence of these hazardous substances should minimize disposal problems and costs. This lab manual focuses not only on what happens during chemical reactions, but also helps students understand why chemical reactions occur. The sequence of experiments has been refined to follow topics covered in most general chemistry textbooks. In addition, Murov has included a correlation chart that links the experiments in the manual to the corresponding chapter topics in several Cengage Learning general chemistry titles. Each experiment--framed by pre-and post-laboratory exercises and concluding thought-provoking questions--helps to enhance students' conceptual understanding. This unusual volume seeks to accomplish three related goals:

- * to assess the extent and limits of media power in election campaigns
- * to extend the concept of media agenda-setting to include the contributions of powerful news sources in the process of election agenda formation
- * to evaluate the impact of national system variables (differences in political and media systems) on the balance of party and media forces in the formation of campaign agendas

In the process, it

searches for ways of measuring the discretionary power of the media in electoral politics, testing this in terms of the relative ability of journalists and politicians to shape election campaign agendas.

Oliver’s Hunger Newly turned vampire Oliver has trouble controlling his thirst for blood. Every night is a struggle against temptation, but when Asian beauty Ursula literally falls into his arms, he fears he will lose the battle over his inner demons and succumb to bloodlust. Thomas’s Choice Scanguards vampire and master of mind control Thomas has mentored newbie vampire Eddie for over a year--and been in love with him for just as long. But he believes that his love will never be reciprocated. While patrolling San Francisco for evil vampires, Eddie kisses Thomas as a diversionary tactic and is shaken to the core by his reaction. Cain’s Identity Scanguards bodyguard Cain struggles with amnesia; however, the curtain to his past finally begins to lift when a mysterious stranger appears, revealing that Cain was the victim of an assassination attempt. Cain finds out that not only is he a powerful vampire king, he’s also engaged to Faye Duvall, the female vampire who’s been haunting his dreams. Luther’s Return After twenty years incarcerated in a vampire prison, Luther is finally free. Actress Kimberly “Katie” Fairfax has turned her back on Hollywood and now teaches drama at a college in San Francisco. When Scanguards owner Samson’s daughter disappears during a performance, Katie blames herself for inadvertently putting Isabelle in the path of danger. Realizing that Luther may be the only one who can rescue Samson’s daughter, she forges a tenuous alliance with the inscrutable stranger. Blake’s Pursuit Vampire Blake Bond and Lilo Schroeder, a human, are thrown together when their mutual friend Hannah goes missing. As they unravel the mystery of Hannah’s disappearance, they uncover a dangerous plot by rogue vampires that may endanger the lives of all humans. Fateful Reunion Vampiress Roxanne thought that, by joining Scanguards as a bodyguard and starting a new life, she could put her painful past to rest. However, old wounds are opened when Charles, a witch, surfaces, requesting protection for himself and his companion. John’s Yearning Emotionally scarred by the death of his mate and unborn child, vampire John Grant avoids women at all costs. But when single mother Savannah Rice begs him for help finding her kidnapped daughter Buffy, he can’t help but feel drawn to her and the passion that lies dormant behind her blue eyes. Mortal Wish Jake Stone comes to an island with a magical spring to have his only wish in life fulfilled: to be mortal again. As a vampire, he’s tired of the lonely and unfulfilling life he’s been living. Then he meets Claire Culver, a woman whose trip to the island is her last hope. She wishes for a miracle to cure her of a terminal illness. Will her wish be granted, or will this be her last Christmas? There is a serial killer loose in America's National Parks. Greyson Beauchene, Head Ranger of Alaska's Denali National Park is certain he will never have to deal with that because his park is too 'out of the way.' However, Ranger Beauchene soon finds out he is dead wrong. Greyson and his two assistants are flown by helicopter into a remote section of the park where hikers have found a casket, one of the biggest indicators the serial killer has found Denali. Greyson's team is joined by one incredibly irritating and extremely demanding FBI Profiler and her two Agents. Very good at what she does, Aspen O'Connell sets out to take control of the crime scene and everyone involved in it, and Greyson is having none of it. Greyson, Aspen and their teams must work together to find this killer before he kills again. Events move quickly as the group pieces together clues from the crime scene and a profile is established. As they work through abduction attempts and visible threats, Greyson and Aspen struggle to put their

This book chronicles a family of diplomats who experienced the world in transition. Subjects of capricious fate, they forged a destiny as a family that overcame some of the most cataclysmic events of the twentieth century. *Diplomats and Dreamers* is a family biography that begins with the careers of the parents in 1887 and ends with the death of Nadejda Stancioff, their eldest child, in 1957. The context of historical developments in an uncertain period of European history highlights their lives. Members of the haute bourgeoisie, this accomplished family is noteworthy for an unflagging ability to survive and persist with success and grace. Furthermore, this book addresses issues of gender by using the careers of the Stancioff women as exemplars of how a woman could develop her life in an atmosphere of strict gender divisions in labor. The Stancioff women's way of fitting into the mainstream of elite society is yet another model of a new generation of women who stepped beyond the narrow expectations of what their gender could achieve. Based on unexplored, unpublished primary materials, this book enriches both women's history and European history.

This clear and lively introduction to probability theory concentrates on the results that are the most useful for applications, including combinatorial probability and Markov chains. Concise and focused, it is designed for a one-semester introductory course in probability for students who have some familiarity with basic calculus. Reflecting the author's philosophy that the best way to learn probability is to see it in action, there are more than 350 problems and 200 examples. The examples contain all the old standards such as the birthday problem and Monty Hall, but also include a number of applications not found in other books, from areas as broad ranging as genetics, sports, finance, and inventory management.

The autobiography of a 15-year-old New Yorker who is dying of AIDS. Anthony Johnson was born in 1977 and for 11 years was physically and sexually abused by his parents. However, this book is not a grimly explicit account of those years; it is a journal about the strength of friendship and the joy of growing up in New York, the wonders of knowledge and the happiness in his new adopted family. The voice is that of a bright teenager who has belief in the goodness of mankind despite the horrors he has and is suffering.

In this fourth volume of the AOSpine Masters Series experts from around the world share their strategies for managing the most common adult spinal deformities. This book gives clinicians the guidance they need to make the right treatment decisions and provide the best care for their patients. Chapter topics include osteotomies for rigid spinal deformities, postoperative coronal decompensation in adult deformity, and biomechanics and material science for deformity correction. Key Features: The issues

of patient selection, outcomes, and complications along with all the essential preoperative and intraoperative factors are discussed in detail in every chapter. Editors are internationally recognized authorities on the management of adult spinal deformities. Each chapter includes expert tips and pearls. The AOSpine Masters Series, a copublication of Thieme and AOSpine, a Clinical Division of the AO Foundation, addresses current clinical issues whereby international masters of spine share their expertise and recommendations on a particular topic. The goal of the series is to contribute to an evolving, dynamic model of an evidence-based medicine approach to spine care. All spine surgeons, orthopaedic surgeons, and neurosurgeons, along with residents and fellows in these areas, will find this book to be an excellent reference that they will consult often in their treatment of patients with cervical spine injuries. Accessible, undergraduate-level text illustrates the role of algebras of holomorphic functions in the stabilization of a linear control system. Concise, self-contained treatment avoids advanced mathematics. 2009 edition.

Schizophrenia is widely considered the most severe and disabling of the mental illnesses. Yet recent research has demonstrated that many people afflicted with the disorder are able to recover to a significant degree. *Living Outside Mental Illness* demonstrates the importance of listening to what people diagnosed with schizophrenia themselves have to say about their struggle, and shows the dramatic effect this approach can have on clinical practice and social policy. It presents an in-depth investigation, based on a phenomenological perspective, of experiences of illness and recovery as illuminated by compelling first-person descriptions. This volume forcefully makes the case for the utility of qualitative methods in improving our understanding of the reasons for the success or failure of mental health services. The research has important clinical and policy implications, and will be of key interest to those in psychology and the helping professions as well as to people in recovery and their families.

If you've ever found yourself picking off your nail polish, sitting in your sweats with an empty carton of Ben & Jerry's, wondering, "Where are all the good men, and why isn't a gorgeous one standing shirtless in my kitchen mixing me up a pomegranate mojito?" I hate to tell you this, but it's your own fault. Not to worry -- I'm here to help you make that fantasy a reality, with one major addition: you'll be sipping that mojito with a big, glittering diamond ring on your left hand. Sounds too good to be true? It isn't. As a third-generation matchmaker and the president of one of the world's most elite dating services -- the Millionaire's Club -- I've put myself in the enviable position of being friend, *confi dante*, and relationship counselor to men and women the world over. I know what the good guys want in a wife, and what sends them screaming into the night. Now I'm sharing their secrets with you. I've compiled my best tried-and-true advice and I'm going to tell you the things that even your best friend doesn't have the courage to break to you. If you follow my formula, the man of your dreams will appear in your life, and you can be in a committed, monogamous relationship with him in less than a year. Get ready -- I'm about to show you how to make all your relationship dreams come true.

In this comprehensive resource, Raymond J. Wlodkowski and Margery B.

Ginsberg describe how to meet the challenge of teaching intensive and accelerated courses to nontraditional learners and working adults. By making motivation and cultural relevance essential to instruction, they clearly show what instructors can do to enhance learning in classes that can last from three to six hours. Teaching Intensive and Accelerated Courses makes full use of the authors' twenty years of experience researching and teaching accelerated courses, along with selected strategies from Wlodkowski's classic Enhancing Adult Motivation to Learn, to offer tried-and-true practices instructors can use to provide continuously engaging learning. Praise for Teaching Intensive and Accelerated Courses "Part-time teachers who work in accelerated degree programs are an enormous—and grossly underserved—group of adult education faculty. In this indispensable text, Wlodkowski and Ginsberg, two teachers with extensive firsthand experience of accelerated learning formats, provide an accessible, practical, and highly readable guide to engaging learners in these programs. Warm, wise, and down-to-earth, this will be an invaluable resource for teachers in these programs and for faculty developers everywhere."—Stephen D. Brookfield, Distinguished University Professor, University of St. Thomas, Minnesota "Whether you are an experienced teacher of accelerated courses or about to become a new one, I can't think of a better guide and standard-setter than this book. Wlodkowski and Ginsberg have created an instructional theory with practices that mirror the very principles and processes they advocate. Central to their thesis is the need to create conditions that will allow adults' natural desire to learn to emerge; in my view, this perspective is often lost in adult learning courses in the name of efficiency or productivity. That is one of the many reasons this book is refreshing in both its approach and the values it espouses."—Pamela Tate, president and CEO, The Council for Adult and Experiential Learning "What a helpful resource for faculty professional development! The information is strategic without being formulaic. New faculty can use this book as a resource to design their materials and to use their existing skills to help adults learn. The parts of this book that focus on graduate students are extremely insightful."—Victoria Gardner, director, Office of Multicultural Affairs, University of Washington School of Medicine

The Standards of Conduct Office of the Department of Defense General Counsel's Office has assembled this publication, the Encyclopedia of Ethical Failure - Revised September 2015, for use as a training tool. Our goal is to provide DoD personnel with real examples of Federal employees who have intentionally or unwittingly violated the standards of conduct. Some cases are humorous, some sad, and all are real. Some will anger you as a Federal

employee and some will anger you as an American taxpayer. Please pay particular attention to the multiple jail and probation sentences, fines, employment terminations and other sanctions that were taken as a result of these ethical failures. Violations of many ethical standards involve criminal statutes. Protect yourself and your employees by learning what you need to know and accessing your Agency ethics counselor if you become unsure of the proper course of conduct. Be sure to access them before you take action regarding the issue in question. Many of the cases displayed in this collection could have been avoided completely if the offender had taken this simple precaution. The cases have been arranged according to offense for ease of access. Feel free to reproduce and use them as you like in your ethics training program.

"The American sniper could be regarded as the greatest all-around rifleman the world has ever known. . . ." At the start of the war in Vietnam, the United States had no snipers; by the end of the war, Marine and army precision marksmen had killed more than 10,000 NVA and VC soldiers--the equivalent of an entire division--at the cost of under 20,000 bullets, proving that long-range shooters still had a place in the battlefield. Now noted military historian Michael Lee Lanning shows how U.S. snipers in Vietnam--combining modern technology in weapons, ammunition, and telescopes--used the experience and traditions of centuries of expert shooters to perfect their craft. To provide insight into the use of American snipers in Vietnam, Lanning interviewed men with combat trigger time, as well as their instructors, the founders of the Marine and U.S. Army sniper programs, and the generals to whom they reported. Backed by hard information and firsthand accounts, the author demonstrates how the skills these one-shot killers honed in the jungles of Vietnam provided an indelible legacy that helped save American lives in Grenada, the Gulf War, and Somalia and continues to this day with American troops in Bosnia.

Postcards From a Rock& Roll Tour is drummer Gordy Marshall's witty and wry take on life on the road touring with legendary rock band The Moody Blues. Part memoir, part travelogue, it's a candid, unexpected and often hilarious account of just what it's like to travel around the world playing to sell-out audiences, living out of a suitcase and spending days and days on a tour bus. If you thought being in a rock band was all sex, drugs and rock and roll, then think again. Postcards From a Rock & RollTour gives a rare insight into the reality of life as a travelling musician. Includes a foreword by the legendary Graeme Edge of The Moody Blues.

These hilarious essays on life inside and outside a Zen monastery make up the spiritual memoir of Shozan Jack Haubner, a Zen monk who didn't really start out to be one. Raised in a conservative Catholic family, Shozan went on to study philosophy (becoming de-Catholicized in the process) and to pursue a career as a screenwriter and stand-up comic in the clubs of L.A. How he went from life in the fast lane to life on the stationary meditation cushion is the subject of this laugh-out-loud funny account of his experiences. Whether he's dealing with the

pranks of a juvenile delinquent assistant in the monastery kitchen or defending himself against claims that he appeared in a porno movie under the name "Daniel Reed" (he didn't, really) or being surprised in the midst of it all by the compassion he experiences in the presence of his teacher, Haubner's voice is one you'll be compelled to listen to. Not only because it's highly entertaining, but because of its remarkable insight into the human condition.
