"Uqasha offers a paradox in its invention of 'moral' erotic fiction which defies the narrow preconceptions of the Islamic faith by putting Muslim values and characters - and challenges to these values - at its heart. A quietly subversive twist to the erotic fiction genre, and a bold,

brave debut.” — Arifa Akbar Causing a sensation in Malaysia with its Wattpad debut in 2015, Uqasha plunges the reader into unfamiliar erotic terrain from the first word. It depicts the inner life of a 22-year-old Muslim woman in Kuala Lumpur, who dares to question the position of married women in a deeply conservative society. Against a unique backdrop of sex and twisted desire, endless mind games unfold between her and Adam, the man she was forced to marry out of duty. For the first time, a Muslim woman is not only portrayed as engaging in sex but also experiencing a sensual self-awakening while becoming empowered enough to use her sexuality to renegotiate her position in her marriage. Over 5.64 million readers have confirmed Uqasha’s position as a landmark in Malaysian erotic writing and now it is now available in English for the first time. Discover Uqasha ? the Muslim erotica the world has been waiting for. (Fixi London)

What does it mean to be transported by a narrative?to create a world inside one's head? How do experiences of narrative worlds alter our experience of the real world? In this book Richard Gerrig integrates insights from cognitive psychology and from research linguistics, philosophy, and literary criticism to provide a cohesive account of what we have most often treated as isolated aspects of narrative experience. Drawing on examples from Tolstoy to Toni Morrison, Gerrig offers new analysis of some classic problems in the study of narrative. He discusses the ways in which we are cognitively equipped to tackle fictional and nonfictional narratives; how thought and emotion interact when we experience narrative; how narrative information influences judgments in the real world; and the reasons we can feel the same excitement and suspense when we reread a book as when we read it for the first time. Gerrig also explores the ways we enhance the experience of narratives, through finding solutions to textual dilemmas, enjoying irony at the expense of characters in the narrative, and applying a wide range of interpretive techniques to discover meanings concealed by and from authors.

The “explosive” (The New York Times) bestseller—now with a new introduction by the author When Hitler’s Pope, the shocking story of Pope Pius XII that “redefined the history of the twentieth century” (The Washington Post) was originally published, it sparked a firestorm of controversy both inside and outside the Catholic Church. Now, award-winning journalist John Cornwell has revisited this seminal work of history with a new introduction that both answers his critics and reaffirms his overall thesis that Pius XII, now scheduled to be canonized by the Vatican, weakened the Catholic Church with his endorsement of Hitler—and sealed the fate of the Jews in Europe.

Most Muslim-majority countries have legal systems that enshrine both Islam and liberal rights. While not necessarily at odds, these dual commitments nonetheless provide legal and symbolic resources for activists to advance contending visions for their states and societies. Using the case study of Malaysia, *Constituting Religion* examines how these legal arrangements enable litigation and feed the construction of a 'rights-versus-rites binary' in law, politics, and the popular imagination. By drawing on extensive primary source material and tracing controversial cases from the court of law to the court of public opinion, this study theorizes the 'judicialization of religion' and the radiating effects of courts on popular legal and religious consciousness. The book documents how legal institutions catalyze ideological struggles, which stand to redefine the nation and its politics. Probing the links between legal pluralism, social movements, secularism, and political Islamism, *Constituting Religion* sheds new light on the confluence of law, religion, politics, and society.
