Storia dei rapporti tra l'Impero bizantino e la sua Chiesa all'epoca dell'imperatore Leone VI e del suo quarto matrimonio, ostacolato dal patriarcato perché contrario ai canoni ecclesiastici.

The island of Sicily was a highly contested area throughout much of its history. Among the first to exert strong influence on its political, cultural, infrastructural, and demographic developments were the two major decentralized civilizations of the first millennium BCE: the Phoenicians and the Greeks. While trade and cultural exchange preceded their permanent presence, it was the colonizing movement that brought territorial competition and political power struggles on the island to a new level. The history of six centuries of colonization is replete with accounts of conflict and warfare that include cross-cultural confrontations, as well as interstate hostilities, domestic conflicts, and government violence. This book is not concerned with realities from the battlefield or questions of military strategy and tactics, but rather offers a broad collection of archaeological case studies and historical essays that analyze how political competition, strategic considerations, and violent encounters substantially affected rural and urban environments, the island's heterogeneous communities, and their social practices. These contributions, originating from a workshop in 2018, combine expertise from the fields of archaeology, ancient history, and philology. The focus on a specific time period and the limited geographic area of Greek Sicily allows for the thorough investigation and discussion of various forms of organized societal violence and their consequences on the developments in society and landscape.

Drawing on new archaeological evidence, an authoritative history of Rome's Great Fire—and how it inflicted lasting harm on the Roman Empire According to legend, the Roman emperor Nero set fire to his majestic imperial capital on the night of July 19, AD 64 and fiddled while the city burned. It's a story that has been told for more than two millennia—and it's likely that almost none of it is true. In *Rome Is Burning*, distinguished Roman historian Anthony Barrett sets the record straight, providing a comprehensive and authoritative account of the Great Fire of Rome, its immediate aftermath, and its damaging longterm consequences for the Roman world. Drawing on remarkable new archaeological discoveries and sifting through all the literary evidence, he tells what is known about what actually happened—and argues that the disaster was a turning point in Roman history, one that ultimately led to the fall of Nero and the end of the dynasty that began with Julius Caesar. *Rome Is Burning* tells how the fire destroyed much of the city and threw the population into panic. It describes how it also destroyed Nero's golden image and provoked a financial crisis and currency devaluation that made a permanent impact on the Roman economy. Most importantly, the book surveys, and

includes many photographs of, recent archaeological evidence that shows visible traces of the fire's destruction. Finally, the book describes the fire's continuing afterlife in literature, opera, ballet, and film. A richly detailed and scrupulously factual narrative of an event that has always been shrouded in myth, Rome Is Burning promises to become the standard account of the Great Fire of Rome for our time.

Mai forse Paul Ricoeur aveva affrontato un campo così vasto come in quest'opera. Non solo perché sulla stessa problematica al primo volume ne segue un altro e poi un terzo, ma per ciò che egli stesso definisce come "il carattere temporale dell'esperienza umana". Così Ricoeur ne parla in una intervista rilasciata a "Le Nouvel Observateur": "Esiste tra l'attività di raccontare una storia e il carattere temporale dell'esperienza umana una correlazione necessaria e universale. In altri termini il tempo diviene 'tempo umano' nella misura in cui è articolato in un racconto; e d'altro canto, il racconto raggiunge il suo pieno significato quando diviene una condizione dell'esperienza temporale. Il tempo è un aspetto dei movimenti dell'universo. Se non ci fosse nessuno per contare gli intervalli non ci sarebbe tempo. L'attività del racconto consiste nel costruire degli insiemi temporali: configurare il tempo"

composta nella sua coerenza, ma olimpicamente lontana dai travagli degli uomini e della sua epoca. Non è tale il Croce di cui Giuseppe Galasso ha ricostruito il lungo itinerario nella vita intellettuale e civile del suo tempo. Passa in queste pagine la storia italiana ed europea del Novecento, con tutta la vivacità del vissuto di uno dei grandi spiriti che quella storia ha contribuito a costruire. Un protagonista che ha interpretato e, insieme, promosso lo spirito e l'identità di una cultura, di un mondo civile e sociale, di una tradizione e di uno spazio etico-politico. Un Croce molto al di là delle polemiche che ne hanno alterato o falsato la figura e il ruolo. Non il soffocante dittatore di mezzo secolo di cultura italiana, ma una grande voce dell'Europa in Italia e dell'Italia in Europa. Non l'olimpico celebratore di una marcia trionfale dello Spirito o del bene e del meglio nella storia, ma un appassionato testimone dei drammi del suo tempo e della perenne dialettica propria dello spirito e della storia, a partire dall'esperienza di un'angoscia diventata in lui «mite e domestica» grazie a una straordinaria autodisciplina intellettuale e morale. Un grande educatore al rigore logico nel segno delle distinzioni che danno autonomia a tutte le manifestazioni della vita. Un grande filosofo della libertà e della civiltà liberale. Un grande 'classico' della maggiore tradizione umanistica europea, reso molto più vicino a noi e che avvicina a noi la storia di cui fu così gran parte.

The 71st volume of the Eranos Yearbooks, *Beyond Masters – Spaces Without Thresholds*, presents the work of the activities at the Eranos Foundation in 2012. The book gathers the lectures organized on the theme of the 2012 Eranos Conference, "On the Threshold – Disorientation and New Forms of Space" together with the talks given on the occasion of the 2012 Eranos-Jung Lectures seminar cycle, on the topic, "The Eclipse of the Masters?" This volume includes essays by Valerio Adami, Stephen Aizenstat, Claudio Bonvecchio, Michael Engelhard, Adriano Fabris, Maurizio Ferraris, Mauro Guindani, Nikolaus Koliusis, Fabio Merlini, Bernardo Nante, Fausto Petrella, Gian Piero Quaglino, Shantena Augusto Sabbadini, Amelia Valtolina, and Marco Vozza. Each lecture is reproduced in the language in which it was presented: 12 essays in Italian, 3 in English, and 2 in German.

The composition of the solo concerto studied as an evolving debate (rather than a static technique), and for its stylistic features.

This stimulating collection of essays by prominent scholars honours Turid Karlsen Seim. *Bodies, Borders, Believers* brings together biblical scholars, ecumenical theologians, archaeologists, classicists, art historians, and church historians, working side by side to probe the past and its receptions in the present. The contributions relate in one way or another to Seim's broad research interests, covering such themes as gender analysis, bodily practices, and ecumenical dialogue. The editors have brought together an international group of scholars, and among the contributors many scholarly traditions, theoretical orientations, and methodological approaches are represented, making this book an interdisciplinary and border-crossing endeavour. A comprehensive bibliography of Seim's work is included.
