The International Bestseller "This book blew my mind. More importantly, it made financial independence seem achievable. I read Financial Freedom three times, cover-to-cover." —Lifemaker Money is unlimited. Time is not. Become financially independent as fast as possible. In 2010, 24-year old Grant Sabatier woke up to find he had \$2.26 in his bank account. Five years later, he had a net worth of over \$1.25 million, and CNBC began calling him "the Millennial Millionaire." By age 30, he had reached financial independence. Along the way he uncovered that most of the accepted wisdom about money, work, and retirement is either incorrect, incomplete, or so old-school it's obsolete. Financial Freedom is a step-by-step path to make more money in less time, so you have more time for the things you love. It challenges the accepted narrative of spending decades working a traditional 9 to 5 job, pinching pennies, and finally earning the right to

retirement at age 65, and instead offers readers an alternative: forget everything you've ever learned about money so that you can actually live the life you want. Sabatier offers surprising, counter-intuitive advice on topics such as how to: \*

- \* Create profitable side hustles that you can turn into passive income streams or full-time businesses
- \* Save money without giving up what makes you happy
- \* Negotiate more out of your employer than you thought possible
- \* Travel the world for less
- \* Live for free--or better yet, make money on your living situation
- \* Create a simple, money-making portfolio that only needs minor adjustments
- \* Think creatively--there are so many ways to make money, but we don't see them.

But most importantly, Sabatier highlights that, while one's ability to make money is limitless, one's time is not. There's also a limit to how much you can save, but not to how much money you can make. No one should spend precious years working at a job they dislike or worrying about how to make ends meet. Perhaps the biggest surprise: You need less money to "retire" at age 30 than you do at age 65. Financial Freedom is not merely a laundry list of advice to follow to get rich quick--it's a practical roadmap to living life on one's own terms, as soon as possible.

comes from a breadwinning mindset. Nearly half of working women in the United States are now their household's main breadwinner. And yet, the majority of women still aren't being brought up to think like breadwinners. In fact, they're actually discouraged--by institutional bias and subconscious beliefs--from building their own wealth, pursuing their full earning potential, and providing for themselves and others financially. The result is that women earn less, owe more, and have significantly less money saved and invested for the future than men do. And if women do end up the main breadwinners, they've been conditioned to feel reluctant and unprepared to manage the role. In *Think Like a Breadwinner*, financial expert Jennifer Barrett reframes what it really means to be a breadwinner. By dismantling the narrative that women don't--and shouldn't--take full financial responsibility to create the lives they want, she reveals not only the importance of women building their own wealth, but also the freedom and power that comes with it. With concrete practical tools, as well as examples from her own journey, Barrett encourages women to reclaim, rejoice in, and aspire to the role of breadwinner like never before.

The Great American Recession resulted in the loss of eight million jobs between 2007 and 2009. More than four million homes were lost to foreclosures. Is it a coincidence that the United States witnessed a dramatic rise in household debt in the years before the recession—that the total amount of debt for American households doubled between 2000 and 2007 to \$14 trillion? Definitely not. Armed with clear and powerful evidence, Atif Mian and Amir Sufi reveal in *House of Debt* how the Great Recession and Great Depression, as well as the current economic malaise in Europe, were caused by a large run-up in household debt followed by a significantly large drop in household spending. Though the banking crisis captured the public's attention, Mian and Sufi argue strongly with actual data that current policy is too heavily biased toward protecting banks and creditors. Increasing the flow of credit, they show, is disastrously counterproductive when the fundamental problem is too much debt. As their research shows, excessive household debt leads to foreclosures, causing individuals to spend less and save more. Less spending means less demand for goods, followed by declines in production and huge job losses. How do we end such a cycle? With a direct attack on debt, say Mian and Sufi. More aggressive debt forgiveness after the crash helps, but as they illustrate, we can be rid of painful bubble-and-bust episodes only if the financial system

moves away from its reliance on inflexible debt contracts. As an example, they propose new mortgage contracts that are built on the principle of risk-sharing, a concept that would have prevented the housing bubble from emerging in the first place. Thoroughly grounded in compelling economic evidence, House of Debt offers convincing answers to some of the most important questions facing the modern economy today: Why do severe recessions happen? Could we have prevented the Great Recession and its consequences? And what actions are needed to prevent such crises going forward?
