A masterpiece of spellbinding suspense, where evil wears the most innocent face of all... Rosemary Woodhouse and her struggling actor husband Guy move into the Bramford, an old New York City apartment building with an ominous reputation and mostly elderly residents. Neighbors Roman and Minnie Castavet soon come nosing around to welcome the Woodhouses to the building, and despite Rosemary's reservations about their eccentricity and the weird noises that she keeps hearing, her husband takes a special shine to them. Shortly after Guy lands a plum Broadway role, Rosemary becomes pregnant, and the Castavets start taking a special interest in her welfare. As the sickened Rosemary becomes increasingly isolated, she begins to suspect that the Castavets' circle is not what it seems... High school and college text books tell us about Kings, Emperors, Dictators, Generals, Presidents and crooked politicians who make sure that those who write history give them full credit for what they did and said and their heroic nature. One of the reasons we study history is to learn about the nature of mankind so as to be able to predict his behavior. But to study history based only on those mentioned above, tells us little about mankind, how he thinks, his behavior and how he affects History. To accomplish this, I have collected information based on letters, family trees and oral histories. This has enabled me to create a story beginning with a man and a woman in 1763 and ending two generations later after wars, depressions, panics, epidemics, corrupt politicians and human frailties in 1843.

Recently released from prison, David Marion doesn't expect to find a hitman at his door. Their meeting is lethal – for the hitman. Warned that a powerful secret organisation is after him, David disappears until the moment comes for him to strike back. Physicist Helen Freyl owns a colony of bees with unique venom. When her lover dies, she accepts a job offer from a giant pharmaceutical company who are close to finding a cure for radiation poisoning. But when the mysteriously sudden death of a colleague is followed by another, Helen begins to doubt her employers' motives and realises that her own life is in danger, too. Venom brings David and Helen together as they fight for their lives against a backdrop of industrial espionage, corporate greed and human tragedy.

The second largest ethnic group in Alberta, the German ethnolinguistic community has played a significant role in Alberta's history, but the future is bleak for maintaining German language and culture in the multicultural mosaic of Alberta. This book examines the stature of the German language in Alberta by addressing the use of German in the community and the teaching of German in schools and universities in the province.

Our theology does not exist in a vacuum but must relate to the world we inhabit and must influence our moral and ethical actions. This is especially true when discussing theology of "the land" in the context of a violent territorial conflict. The Holy Land has seen so much bloodshed that the earth itself is crying out to God. The chapters presented in this book form a unique collection of voices speaking from different perspectives on the issue of the theology of the land. These voices include Messianic Jewish and Palestinian Christian theologians and scholars who live in the Holy Land, as well as others from around the world. The various chapters reflect a wide spectrum of opinion and reveal how much disagreement still exists among followers of Christ. However, the dialogue generated by having these opposing voices side by side, speaking to each other rather than past each other, is encouraging. This book is both challenging and inspirational, and contributes in an innovative way to this important discussion.

A Haunting at Land's End is a paranormal romance novel for the lovers of ghost and haunted house stories. This story begins as the Civil War is ending in Charleston, South Carolina, and moves through time to today. Most ghost stories skip around the reason for the haunting, however, this book tells the story from the perspective of everyone involved. Even the ghost Anna speaks. Allen and Susan are in love but can't marry and begin a life together at the restored Land's End until the ghost that's causing so much trouble in the house has finally crossed over to the other side. Anna refuses to leave until she finds her baby, Rosemary, who Anna thinks is hiding and playing peek-a-boo with her.

America views itself as a nation inhabiting a "promised land" and enjoying a favoured relation with God. This view of unique election has been coupled with racial exclusivism and the marginalization of non-white citizens. America, Amerikkka traces the historical and ideological patterns behind America's sense of itself. In its examination of America's "choseness", the book ranges across the doctrine of the "rights of man" in the 18th and 19th centuries, the role of America in the twentieth century as "global policeman", and the enforcement of neo-colonial relations over the "third world". The volume argues for a vision of global relations between peoples based on justice and mutuality, rather than hegemonic dominance.

A critical examination of political Zionism, a topic often considered taboo in the West, is long overdue. Moreover, the discussion of Christian Zionism is usually confined to Evangelical and fundamentalist settings. The present volume will break the silence currently reigning in many religious, political, and academic circles and, in so doing, will provoke and inspire a new, challenging conversation on theological and ethical issues arising from various aspects of Zionism--a conversation that is vital to the quest for a just peace in Israel and Palestine. The eight authors offer a rich diversity of religious faith, academic research, and practical experience, as they represent all three Abrahamic faiths and five different Christian traditions. Among the many themes that run through Zionism and the Quest for Justice in the Holy Land is the contrast between exclusivist narratives, both biblical and political, and the more inclusive narratives of the prophetic Scriptures, which provide the theological foundation and the moral imperative for human liberation. Readers will be drawn into a compelling, readable, and stimulating series of essays that tackle many of the complex issues that still confound clergy, politicians, diplomats, and academic experts.

Looks at how the lives of John Winthrop, governor of Massachusetts, and Oliver Cromwell, Lord Protector of the Puritan Commonwealth in England, were intertwined at a time of conflict between church and state and between Native and European Americans.

Transsexualism is a phenomenon of our time. At other times and in other places, there have been, or still are, people not living in the sex of their origin and having a special status. In Western culture, however, hormones and surgery have become available through advances in medical science which have made sex change a reality.

Facing the approach of middle age, David Baker finds himself bored, uninspired and just going through the motions. Then another failed romance and a family tragedy cause him to return from Boston to his home in Iowa where he discovers a family tradition of a "stolen fortune". This discovery motivates him to begin a search for the story behind the family tradition and for his own

roots. With the help of a friend, he works his way back into the past and discovers a link to an event that changed his family forever. This leads him farther back into time and along the way he meets Abigail Palmer, a young woman with similar interests. Together they work to solve the 200-year old mystery and discover a modern day secret linked to events from long ago. Then, a mysterious woman who seems to know some of the answers they seek helps them find the truth. But, the truth leads David and Abby into new danger and a final confrontation with a legacy of the past. Can they finally solve the mystery, or will they be consumed by the same treachery of the past?

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

Because events in the Middle East continue to escalate in tragic complexity, Christians still struggle with making sense of it all. In this updated version of "Whose Land? Whose Promise?," Gary Burge further explores the personal emotions and opinions, and sharpens his theological argument in the context of the new developments surrounding the crisis in the Middle East. "Whose Land? Whose Promise?" offers insight for the thoughtful reader on an explosive topic and challenges personal truths on peace.

The essential, "richly researched"* biography of Harriet Tubman, revealing a complex woman who "led a remarkable life, one that her race, her sex, and her origins make all the more extraordinary" (*The New York Times Book Review). Harriet Tubman is one of the giants of American history—a fearless visionary who led scores of her fellow slaves to freedom and battled courageously behind enemy lines during the Civil War. Now, in this magnificent biography, historian Kate Clifford Larson gives us a powerful, intimate, meticulously detailed portrait of Tubman and her times. Drawing from a trove of new documents and sources as well as extensive genealogical data, Larson presents Harriet Tubman as a complete human being—brilliant, shrewd, deeply religious, and passionate in her pursuit of freedom. A true American hero, Tubman was also a woman who loved, suffered, and sacrificed. Praise for Bound for the Promised Land "[Bound for the Promised Land] appropriately reads like fiction, for Tubman's exploits required such intelligence, physical stamina and pure fearlessness that only a very few would have even contemplated the feats that she actually undertook. . . . Larson captures Tubman's determination and seeming imperviousness to pain and suffering, coupled with an extraordinary selflessness and caring for others."—The Seattle Times "Essential for those interested in Tubman and her causes . . . Larson does an especially thorough job of . . . uncovering relevant documents, some of them long hidden by history and neglect."—The Plain Dealer "Larson has captured Harriet Tubman's clandestine nature . . . reading Ms. Larson made me wonder if Tubman is not, in fact, the greatest spy this country has ever produced."—The New York Sun

Today the "land of promise" is a spark in the tinder dry atmosphere of Middle Eastern affairs. Events there continue to wield influence among peoples and in places well beyond the region itself. This raises for Christians the acute theological problem of how to relate to the "land of promise" today and in light of the land of the Bible. Our hope is that this volume of essays will contribute to a more informed and theologically coherent response to the "Land of Promise." It is offered here in the name of peace for all peoples in that place and among those who continue to look to her as a place of promise.

In Coast to Coast, a wide range of contributors examine the historical development of hockey across Canada, in both rural and urban settings, to ask how ideas about hockey have changed.
