Daniel O'Connell (6 August 1775 – 15 May 1847), often referred to as The Liberator or The Emancipator, was an Irish political leader in the first half of the 19th century. He campaigned for Catholic emancipation—including the right for Catholics to sit in the Westminster Parliament, denied for over 100 years—and repeal of the Acts of Union which combined Great Britain and Ireland. Throughout his career in Irish politics, O'Connell was able to gain a large following among the Irish masses in support of him and his Catholic Association. O'Connell's main strategy was one of political reformism, working within the parliamentary structures of the British state in Ireland and forming an alliance of convenience with the Whigs. More radical elements broke with O'Connell to found the Young Ireland movement. On February 4, 1836, he gave this speech in the House of Commons calling for equal justice.

and philosophy, and Muslim religious sciences, showing continuation of Greek and Persian thought as well as original Muslim contributions to the sciences, philosophy, religion, and culture of Islam. In *Surrealism at Play* Susan Laxton writes a new history of surrealism in which she traces the centrality of play to the movement and its ongoing legacy. For surrealist artists, play took a consistent role in their aesthetic as they worked in, with, and against a post-World War I world increasingly dominated by technology and functionalism. Whether through exquisite-corpse drawings, Man Ray's rayographs, or Joan Miró's visual puns, surrealists became adept at developing techniques and processes designed to guarantee aleatory outcomes. In embracing chance as the means to produce unforeseeable ends, they shifted emphasis from final product to process, challenging the disciplinary structures of industrial modernism. As Laxton demonstrates, play became a primary method through which surrealism refashioned artistic practice, everyday experience, and the nature of subjectivity.

“An ‘almost true’ tale” of a man’s adventures inheriting an elephant, so “lovingly embellished . . . you’ll almost wish that you had a Rosy in your family too”—from the author of the Corfu Trilogy (Kirkus Reviews). When his uncle passes away unexpectedly, young Adrian Rookwhistle’s inheritance turns his humdrum life upside down. Instead of a manor house, Adrian has been bequeathed Rosy, an elephant whose predilection for fine spirits leads to high jinks far beyond the means of a shy English gentleman. Convinced that a circus will take the troublesome tusker off his hands, Adrian leads Rosy on a trek to the coast, setting in motion an uproarious adventure of mammoth proportions. Author Gerald Durrell promises that despite being embellished here and there, “nearly all the adventures in this book really happened.” Ultimately, this tale of a pachyderm with a penchant for pandemonium guarantees pure entertainment. This ebook features an illustrated biography of Gerald Durrell including rare photos from the author’s estate.

Publisher's description: In this original book, B.

Kumaravadivelu presents a macrostrategic framework designed to help both beginning and experienced teachers develop a systematic, coherent, and personal theory of practice. His book provides the tools a teacher needs in order to self-observe, self-analyze, and self-evaluate his or her own teaching acts. The framework consists of ten macrostrategies based on current theoretical, empirical, and experiential knowledge of second language and foreign language teaching. These strategies enable teachers to evaluate classroom practices and to generate techniques and activities for realizing teaching goals. With checklists, surveys, projects, and reflective tasks to encourage critical thinking, the book is both practical and accessible. Teachers and future teachers, researchers, and teacher educators will find the volume indispensable.

In her groundbreaking and innovative study, the author takes us on a fascinating journey through some of Madrid's multilingual and multicultural schools and reveals the role played by linguistic practices in the construction of inequality through such processes as what she calls "de-capitalization" and "ethnicization". Through a critical sociolinguistic and discourse analysis of the data collected in an ethnographic study, the book shows the exclusion caused by monolingualizing tendencies and ideologies of deficit in

education and society. The book opens a timely discussion of the management of diversity in multilingual and multicultural classrooms, both for countries with a long tradition of migration flows and for those where the phenomenon is relatively new, as is the case in Spain. This study of linguistic practices in the classroom makes clear the need to rethink some key linguistic concepts, such as practice, competence, discourse, and language, and to integrate different approaches in qualitative research. The volume is essential reading for students and researchers working in sociolinguistics, education and related areas, as well as for all teachers and social workers who deal with the increasing heterogeneity of our late modern societies in their work.
