Companies continually evaluate their assets, both tangible and intangible. During these evaluations, an extremely important point is often forgotten: that point is that attitude capital is one of the most important assets. The value of all other assets might be in danger if the level of attitude capital is not high enough. And putting the assets of a company in danger can't be the purpose of being in business, because companies are always looking for security and growth. The success of companies is determined by the sum of the individual success of their employees. And the success of employees can be increased dramatically by developing and further increasing the attitude capital. But the development of the right attitude leads not only to success; it also leads to maximal realization potential. For employees, attitude capital is extremely important, more important than knowledge, experience, skills, and talent, because attitude determines how all those elements are transformed into success. In case of lack of the right attitude, the value of knowledge, experience, skills, and talent becomes small to irrelevant. As a result, the chances of being successful are minimal to nonexistent. The right attitude of an employee not only increases his or her individual success but also contributes to the attitude capital of the company and, as a result, to the success of the company. Starters and start-up companies often think they have a unique idea. But often those ideas are not so unique, or they can be imitated very easily. What really will create the difference is the level of attitude capital those starters have from the beginning. Just having passion is not enough. The Power of Attitude Capital is for managers, for employees, and for starters, not only to read, but also to use on a daily basis as a guide to increase attitude capital. The Power of Attitude Capital does not look at what is going wrong in organizations or at an individual level. It rather seeks to motivate organizations and individuals to work on the opportunities that they have to increase success.

dfree™. No debt, no deficits, and no delinquencies. Drawing on his years of experience as a pastor, public policy maker, and community leader, DeForest "Buster" Soaries, Jr. shares the four vital keys to debt-free living in this groundbreaking, life-changing new approach. "The idea that we would be voluntary slaves is offensive to all of our sensibilities," says Soaries. "But when we continue to spend what we don't have, charge what we don't need, and borrow more than we can repay, then we must call the problem what it is: slavery." This is not another financial literacy program assuming that all people need is information. Soaries believes living in debt is an emotional, spiritual, and psychological problem as much as it is an educational and informational one. Here, Soaries shares the four vital keys to debt-free living that have helped hundreds of families in his church get out of debt. By replacing the "get more money" mentality with a "get out of debt" approach to financial freedom, not only were hundreds of people able to go debt free, his church's offerings increased by \$1 million dollars--during the recession. Find out how you can leave a financial legacy of your own by saying yes to no debt. Says Soaries: "There may be no greater need than to understand the value and joy of debt-free living. There may be no greater legacy we can leave our children."

This book, "Positive Thinking: Change your Attitude, Change Your Life" will do just what the title says, it will change your life. This is not your run of the mill power of positive thinking book. It not only tells you about the power of positive thinking and how to utilize this to change your life, but it also explains HOW this works, how your mind works and why negative thinking can and will bring about negative consequences. The author draws upon real life circumstances and analogies to bring the information contained within this book to life, explaining in detail not only how or thinking can keep us from succeeding, but tells us why it works the way it works and how we can combat it to help us succeed in meeting our goals and being the person we were truly meant to be. He does this in a no-nonsense straight forward manner, encouraging us to be the best we can be by silencing those thoughts that tend to put us in this negative cycle. In this book you will learn about: How your mind works to realize your commands How to train your mind to think in positive patterns How to focus

on the present and realize the only time is now How to quiet the inner voice of negativity How to overcome those outer voices of negativity How to get past your past How to focus on the present in order to meet your future goals and a whole host of other information to help us understand ourselves, our minds and our potential for being the best we can possibly be. I have personally read many self-help books that promise to bring the power of positive thinking to reality but have often ended up disappointed and disillusioned with the feeling that there was something I was missing, or maybe it was all just some sort of joke or hoax. This book actually helped me to realize what it was I was missing, where many of those books left me still spiraling out of control, trying to use "positive affirmations" but still failing, this book explained in detail the steps I need to take and helped me to really understand how positive thinking works. One chapter, titled "The Power of Negative Thinking" really brought it all into focus and showed me why, previously I was unable to use positive thinking as I was already bogged down with so many negative thoughts. This book also helps you in becoming aware of your "self" to recognize how you might react to situations, then recognize the "voice" that guides you in your reaction and finally using positive affirmations to release the negative. By the time you are finished reading this book you will find yourself much more informed and equipped to do battle with negativity than you ever realized was possible. The reading is easy and informative with many illustrations and examples so that you can get a great grasp of the subject matter, regardless of your level of comprehension. I read this book to my 9 year old, just to see if he would "get it" and he actually understood the concepts just as well as I did once I finished reading it to him and immediately started putting the concepts into practice. This is the best self-help, positive thinking book I have ever read, which is why I took the time to write this description, as a reader who has been looking for something like this for a long time. I think you will agree that this book will definitely change your attitude and change your mind and will set you on a road to success through Positive Thinking. Give it a read, and let me know what you think in the comments below. I just want to say, if this doesn't help you to see the potential within your own mind, nothing will. Good reading!"

In this book, you'll find in context, everything Aristotle, Socrates and Plato, had to say and a great deal more, all simplified and explained. Basically, those famous Greek philosophers told us we were gods. I will be explaining how and why that's so and show you how to live your life as a god. I will be explaining how simple it is and show you how to make life less complicated. As gods, we have the power to choose who we will BE. And lessons learned from this book will have you using your god power, BEING power, to make yourself richer, healthier, happier and wiser than you've even imagined possible. The book is written with the intention of providing information that will change your attitude, your point of view and your concept of reality, and with those changes, improve the quality of your life in many ways. Those promised quality of life enhancements will be yours to celebrate if you can convince yourself to read this book with an open mind. Keep this in mind: any idea, belief or reality concept, in order to make a difference in the quality of your life, would have to be contrary to your current reality concept. Most of the ideas offered here will challenge the way you currently think about life. Two of the ideas presented are a different way of looking at life and, once accepted, would drastically alter the way you think and once accepted, would have you attracting a whole new and better quality of circumstances. 1. One of those would be if you chose a different reality concept 2. and the other, if you changed your attitude. You will accomplish both of those changes while reading this if you're truly ready for a change. If you can allow yourself to think outside the box, you will be transformed big time by what you learn while reading this book.
