This book makes an original contribution to the discussion about agro-food exporting countries' governmental policy. It presents a historicized and internationally contextualized exploration of the political economy of agrarian change in three Latin American countries: Argentina, Paraguay, and Uruguay. By comparatively examining how these states have acted in a context of global driven market forces and historically formed institutions, the monograph illuminates the differing capacities of state autonomy under the present era of globalized agriculture.

Antibiotics and Antimicrobial Resistance Genes (AMR) in the Environment summarizes and updates information on antibiotic producing organisms and their resistance and entry routes in soil, air, water and sediment. As antibiotic use continues to rise in healthcare, their fate, bioavailability and biomonitoring, and impacts on environment and public health are becoming increasingly important. The book addresses the impact of antibiotics and AMR to environment and public health and risk assessment. Moreover, it focused on the metagenomics and molecular techniques for the detection of antibiotics and antimicrobial genes. Lastly, it introduces management strategies, such as treatment technologies for managing antibiotics and AMR/ARGs-impacted environment, and bioremediation approaches. Summarizes and updates information on antibiotics and AMR/ARGs production and its fate and transport in the environment Includes phytoremediation and bioremediation technologies for environmental management Provides analysis of risk assessment of antibiotic resistance genes to help understand the environmental and socioeconomic impacts of antibiotics and AMR/ARGs

'He had become the dandy of the unpredictable.' A quest for new sensations, and an avowed desire to shock possessed the Decadent writers of fin-de-siècle Paris. The years 1880-1900 saw an extraordinary, hothouse flowering of talent, that produced some of the most exotic, stylized, and cerebral literature in the French language. While 'Decadence' was a European movement, its epicentre was the French capital. On the eve of Freud's early discoveries, writers such as

Gourmont, Lorrain, Maupassant, Mirbeau, Richepin, Schwob, and Villiers engaged in a species of wild analysis of their own, perfecting the art of short fiction as they did so. Death and Eros haunt these pages, and a polymorphous perversity by turns hilarious and horrifying. Their stories teem with addicts, maniacs, and murderers as they strive to outdo each other. This newly translated selection brings together the very best writing of the period, from lesser known figures as well as famous names. Provocative and unsettling, these extraordinary, corrosive little tales continue to cast a cold eye on the modern world. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. This book addresses the connection between political themes and literary form in the most recent Argentine poetry. Ben Bollig uses the concepts of "lyric" and "state" as twin coordinates for both an assessment of how Argentinian poets have conceived a political role for their work and how poems come to speak to us about politics. Drawing on concepts from contemporary literary theory, this striking study combines textual analysis with historical research to shed light on the ways in which new modes of circulation help to shape poetry today.

Through flashbacks, recollections, and short narratives, this story powerfully communicates an individual's experience of exile from an emotional and psychological perspective while at the same time linking the individual experience to the collective one."--BOOK JACKET.

In this meticulously researched study of Basque boardinghouses in the United States, Jeronima Echeverria offers a compelling history of the institution that most deeply shaped Basque immigrant life and served as the center of Basque communities throughout the West. She weaves into her narrative the stories of the boarding house owners and operators and the ways they made their establishments a home away from home for their fellow compatriots, as well as the stories of the young Basques who left the security of their beloved homeland to find work in the United States.

This collection invites us to think about how African-descended men are seen as both appealing and appalling, and exposed to eroticized hatred and violence and how some resist, accommodate, and capitalize on their eroticization. Drawing on James Baldwin and Frantz Fanon, the contributors examine the contradictions, paradoxes, and politico-psychosexual implications of Black men as objects of sexual desire, fear, and loathing. Kitossa and the contributing authors use Baldwin's and Fanon's cultural and psychoanalytic interpretations of Black masculinities to demonstrate their neglected contributions to thinking about and beyond colonialist and Western gender and masculinity studies. This innovative and sophisticated work will be of interest to scholars and students of cultural and media studies, gender and masculinities studies, sociology, political science, history, and critical race and racialization. Contributors: Katerina Deliovsky, Delroy Hall, Dennis O. Howard, Elishma Khokhar, Tamari Kitossa, Kemar McIntosh, Leroy F. Moore Jr., Watufani M. Poe, Satwinder Rehal, John G. Russell, Mohan Siddi

The modern Brazilian short story begins with the mature work of Joaquim Maria Machado de Assis (1839-1908), acclaimed almost unanimously as Brazil's greatest writer. Collectively, these nineteen stories are representative of Machado's unique style and world view, and this translation doubles the number of his stories previously available in English. The stories in this volume reflect Machado's post-1880 emphasis on social satire and experimentation in psychological realism. If he had continued to produce the moralistic love stories and parlor intrigues of his earlier fiction, Machado's legacy would have been an entertaining but inconsequential body of work. However, by 1880 he had begun a devastating satirical assault on society through his fiction. In spite of his ruthlessness, Machado does at times reveal an ironic sympathy for his characters. He is not indifferent to human conflict but uses humor and irony to stress the absurdity of these conflicts, acted out against the backdrop of an indifferent universe. Such a spectacle creates a sense of helplessness that can only inspire wistful amusement. In his technical mastery of the short story, Machado was decades ahead of his contemporaries and can still be considered more modern than most of the modernists themselves. That his stories elicit such strong and diverse reactions today is a tribute to their richness, complexity, and significance.

It has become something of a critical commonplace to claim that science fiction does not actually exist in Argentina. This book puts

that claim to rest by identifying and analyzing a rich body of work that fits squarely in the genre. Joanna Page explores a range of texts stretching from 1875 to the present day and across a variety of media-literature, cinema, theatre, and comics-and studies the particular inflection many common discourses of science fiction (e.g., abuse of technology by authoritarian regimes, apocalyptic visions of environmental catastrophe) receive in the Argentine context. A central aim is to historicize these texts, showing how they register and rework the contexts of their production, particularly the hallmarks of modernity as a social and cultural force in Argentina. Another aim, held in tension with the first, is to respond to an important critique of historicism that unfolds in these texts. They frequently unpick the chronology of modernity, challenging the linear, universalizing models of development that underpin historicist accounts. They therefore demand a more nuanced set of readings that work to supplement, revise, and enrich the historicist perspective.

Argues that Jewishness is an essential element of Argentina's self-fashioning as a modern nation. *The Other/Argentina* looks at literature, film, and the visual arts to examine the threads of Jewishness that create patterns of meaning within the fabric of Argentine self-representation. A multiethnic yet deeply Roman Catholic country, Argentina has worked mightily to fashion itself as a modern nation. In so doing, it has grappled with the paradox of Jewishness, emblematic both of modernity and of the lingering traces of the premodern. By the same token, Jewishness is woven into, but also other to, Argentineity. Consequently, books, movies, and art that reflect on Jewishness play a significant role in shaping Argentina's cultural landscape. In the process they necessarily inscribe, and sometimes confound, norms of gender and sexuality. Just as Jewishness seeps into Argentina, Argentina's history, politics, and culture mark Jewishness and alter its meaning. The feminized body of the Jewish male, for example, is deeply rooted in Western tradition; but the stigmatized body of the Jewish prostitute and the lacerated body of the Jewish torture victim acquire particular significance in Argentina. Furthermore, Argentina's iconic Jewish figures include not only the peddler and the scholar, but also the Jewish gaucho and the urban mobster, troubling conventional readings of Jewish masculinity. As it searches for threads of Jewishness, richly imbued with the complexities of gender and sexuality, *The Other/Argentina* explores the patterns those threads weave, however overtly or subtly, into the fabric of Argentine national meaning, especially at such critical moments in Argentine history as the period of massive state-sponsored immigration, the rise of labor and anarchist movements, the Perón era, and the 1976–83 dictatorship. In arguing that Jewishness is an essential element of Argentina's self-fashioning as a modern nation, the book shifts the focus in Latin American Jewish studies from Jewish identity to the meaning of Jewishness for the nation. This work, by William Douglass (who helped initiate the Basque Studies Program at the University of Nevada, Reno) and Jon Bilbao (author of several Basque reference works), is the most accessible overview of the Basque diaspora in the Western Hemisphere. *Amerikanuak* is a pioneering study of one of the American West's most important ethnic minorities, an engaging, comprehensive survey of Basque migration and settlement in the Americas, and an essential introduction to the history of the Basque people and their five centuries of involvement in the New World. Research for the book took the authors through ten states of the American West, Mexico, Colombia, Peru, Chile, Argentina, Brazil, and Venezuela as they traced the exploits of Basque whalers in the medieval Atlantic, the Basque conquistadors, missionaries, colonists, and shepherders who formed a dramatic part of the history of Spanish America. They also follow the story of the Basques back to their mysterious origins in prehistory to provide background for understanding the Basques' character and their homeland in the Pyrenean mountains and seacoasts between France and Spain. This is a revised and updated edition of the original 1975 publication. New preface by William A. Douglass.

The Comet (1920) is a science fiction story by W. E. B. Du Bois. Written while the author was using his role at The Crisis, the official magazine of the NAACP, to publish emerging black artists of the Harlem Renaissance, The Comet is a pioneering work of speculative fiction which imagines a catastrophic event not only decimating New York City, but bringing an abrupt end to white supremacy. "How silent the street was! Not a soul was stirring, and yet it was high-noon—Wall Street? Broadway? He glanced almost wildly up and down, then across the street, and as he looked, a sickening horror froze in his limbs." Sent to the vault to retrieve some old records, bank messenger Jim Davis emerges to find a city descended into chaos. A comet has passed overhead, spewing toxic fumes into the atmosphere. All of lower Manhattan seems frozen in time. It takes him a few moments to see the bodies, piled into doorways and strewn about the eerily quiet streets. When he comes to his senses, he finds a wealthy woman asking for help. Soon, it becomes clear that they could very well be the last living people in the planet, that the fate of civilization depends on their ability to come together, not as black and white, but as two human beings. But how far will this acknowledgment take them? With a beautifully designed cover and professionally typeset manuscript, this edition of W. E. B. Du Bois' The Comet is a classic work of African American literature reimagined for modern readers.

The rhetoric of "Mexicanness" makes constant use of images of masculinity, though it does so in shifting and often contradictory ways. Robert McKee Irwin's work follows these shifts from the male homosocial bonding that was central to notions of national integration in the nineteenth century, to questioning of gender norms stirred by science and scandals at the turn of the century, to the virulent reaction against gender chaos after the Mexican revolution, to the association of Mexicanness with machismo and homophobia in the literature of the 1940s and 1950s -- even as male homosexuality was established as an integral part of national culture. As the first historical study of how masculinity and, particularly, homosexuality were understood in Mexico in the national era, this book not only provides "queer readings" of major canonical texts of the period but also uncovers a variety of unknown texts from queer Mexican history. Throughout the twentieth century, the Chilean business elite has played a central role in the country, not just as entrepreneurs but also as political and social actors. The chapters in this book, the first in English on the history of Chilean business, focus on the importance of diversified family business groups in twentieth-century Chile, their dynamics, organisation, and management, and their interaction with foreign investors and the state. Using a range of company and government archives, as well as other contemporary sources in Chile, Britain, and the United States, the individual authors pay particular attention to many key topics: the evolution of the Edwards family businesses, those of Pascual Baburizza, Chilean corporate networks, British firms in the nitrate industry, the Anglo South American Bank, the Copec group, Compañía Explotadora de Tierra del Fuego, the energy sector, SOFOFA (the industrialists' association), and the recent growth of Chilean multinationals.

This volume provides an overview of contemporary Italian philosophy from the perspective of animality. Its rationale rests on two main premises: the great topicality of both Italian contemporary philosophy (the so-called "Italian Theory") and of the animal question (the so-called "animal turn" in the humanities and the social sciences) in the contemporary philosophical panorama. The volume not only intersects these two axes, illuminating Italian Theory through the animal question, but also proposes an original thesis: that the animal question is a central and founding issue of contemporary Italian philosophy. It combines historical-descriptive chapters with analyses of the theme in several philosophical branches, such as biopolitics, Posthumanism, Marxism, Feminism, Antispeciesism and Theology, and with original contributions by renowned authors of contemporary Italian (animal) philosophy. The volume is both historical-descriptive and speculative and is intended for a broad academic audience, embracing both Italian studies and Animal studies at all levels.

This book is about the impact of literature upon cities world-wide, and cities upon literature. It examines why the city matters so much to contemporary critical theory, and why it has inspired so many forms of writing which have attempted to deal with its challenges to think about it and to represent it. Gathering together 40 contributors who look at different modes of writing and film-making in throughout the world, this handbook asks how the modern city has engendered so much theoretical consideration, and looks at cities and their literature from China to Peru, from New York to Paris, from London to Kinshasa. It looks at some of the ways in which modern cities – whether capitals, shanty-towns, industrial or ‘rust-belt’ – have forced themselves on people’s ways of thinking and writing.

Argentinian writer Eduardo Gutiérrez (1851-1889) fashioned his seminal gauchesque novel from the prison records of the real Juan Moreira, a noble outlaw whose life and name became legendary in the Río de la Plata during the late 19th century. John Chasteen's fast-moving, streamlined translation--the first ever into English--captures all of the sweeping romance and knife-wielding excitement of the original. William Acree's introduction and notes situate Juan Moreira in its literary and historical contexts. Numerous illustrations, a map of Moreira’s travels, a glossary of terms, and a select bibliography are all included.
