It was never about brains or ability. His students simply didn't have the knowledge of the specific language needed to succeed. Through experimentation and research, he discovered that for any subject there was a list of essential words, that, when mastered, unlocked a student's ability to progress in the subject. Lewis called this set of vocabulary the "Insider's Words". When he applied these "Insider's Words" the results were incredible. His students began to learn with ease. He was on his way to developing the landmark series of workbooks and applications to teach this "Insider's Language" to students around the world.

American author Kurt Vonnegut has famously declared that writing is unteachable, yet formal education persists in that task. *Teaching Writing as Journey, Not Destination* is the culmination of P.L. Thomas's experiences as both a writer and a teacher of writing reaching into the fourth decade of struggling with both. This volume collects essays that examine the enduring and contemporary questions facing writing teachers, including grammar instruction, authentic practices in high-stakes environments, student choice, citation and plagiarism, the five-paragraph essay, grading, and the intersections of being a writer and teaching writing. Thomas offers concrete classroom experiences drawn from teaching high school ELA, first-year composition, and a wide range of undergraduate and graduate courses. Ultimately, however, the essays are a reflection of Thomas's journey and a concession to both writing and teaching writing as journeys without ultimate destinations.
