Is the millionaire next door still out there today? The latest research from Dr. Thomas J. Stanley and his daughter, Dr. Sarah Stanley Fallaw, confirms that, yes, the millionaire next door is alive and well. And he's achieving his financial objectives much the same way he always has: by living below his means, being a contrarian in a maelstrom of hyper-consumption, and being disciplined in reaching his financial goals. The book examines wealth in America 20 years after Dr. Stanley's groundbreaking work on self-made affluence. While a new generation of household financial managers are being inundated with the proliferation financial advice, *The Next Millionaire Next Door* provides readers with an analysis of what it takes to achieve wealth with data-based conclusions and evidence from those who have built wealth on their own over the last two decades. In this current work, the authors detail how specific decisions, behaviors, and characteristics align with the discipline of wealth building, covering areas such as consumption, budgeting, careers, investing, and financial management in general. Through case studies, survey research, and a careful examination of quantitative studies of wealth, the authors illustrate what it takes to achieve financial success today, regardless of market conditions or rising costs.

In the fourth book in the Carver Chronicles series, third grader Calvin is dealing with his next door neighbors moving away—and the school bully moving in. Meanwhile, competition at the school science fair is heating up, and Calvin must decide what to do when his data doesn't prove his theory. This lively installment in a chapter book series about a diverse group of elementary schoolers by Coretta Scott King Honoree Karen English offers spot-on storytelling, relatable characters and situations, and plenty of action. A crocodile falls into a quiet storybook and wreaks havoc on the characters, in a tale that invites youngsters to slam the book shut or find the courage to take a peek inside. As acclaimed psychological researcher and author David Buss writes, "People are mesmerized by murder. It commands our attention like no other human phenomenon, and those touched by its ugly tendrils never forget." Though we may like to believe that murderers are pathological misfits and hardened criminals, the vast majority of murders are committed by people who, until the day they kill, would seem to be perfectly normal. David Buss's pioneering work has made major national news in the past, and this provocative book is sure to generate a storm of attention. *The Murderer Next Door* is a riveting look into the dark underworld of the human psyche—an astonishing exploration of when and why we kill and what might push any one of us over the edge. A leader in the innovative field of evolutionary psychology, Buss conducted an unprecedented set of studies investigating the underlying motives and circumstances of murders, from the bizarre outlier cases of serial killers to those of the friendly next-door neighbor who one day kills his wife. Reporting on findings that are often startling and counterintuitive—the younger woman involved in a love triangle is at a high risk of being killed—he puts forth a bold new general theory of homicide, arguing that the human psyche has evolved specialized adaptations whose function is to kill. Taking readers through the surprising twists and turns of the evolutionary logic of murder, he explains exactly when each of us is most at risk, both of being murdered and of becoming a murderer. His findings about the high-risk situations alone will be news making. Featuring gripping storytelling about specific murder cases—including a never used FBI file of more than 400,000 murders and a highly detailed study of 400 murders conducted by Buss in collaboration with a forensic psychiatrist, and a pioneering investigation of homicidal fantasies in which Buss found that 91 percent of men and 84 percent of women have had at least one such vivid fantasy—*The Murderer Next Door* will be necessary reading for those who have been fascinated by books on profiling, lovers of true crime and murder mysteries, as well as readers intrigued by the inner workings of the human mind.

NEW YORK TIMES AND WALL STREET JOURNAL BESTSELLER • Winner of CMI Management Book of the Year 2019 Based on an in-depth analysis of over 2,600 leaders drawn from a database of more than 17,000 CEOs and C-suite executives, as well 13,000 hours of interviews, and two decades of experience advising CEOs and executive boards, Elena L. Botelho and Kim R. Powell overturn the myths about what it takes to get to the top and succeed. Their groundbreaking research was the featured cover story in the May-June 2017 issue of Harvard Business Review. It reveals the common attributes and counterintuitive choices that set apart successful CEOs—lessons that we can apply to our own careers. Much of what we hear about who gets to the top, and how, is wrong. Those who become chief executives set their sights on the C-suite at an early age. In fact, over 70 percent of the CEOs didn't have designs on the

corner office until later in their careers. You must graduate from an elite college. In fact, only 7 percent of CEOs in the dataset are Ivy League graduates--and 8 percent didn't graduate from college at all. To become a CEO you need a flawless résumé. The reality: 45 percent of CEO candidates had at least one major career blowup. What those who reach the top do share are four key behaviors that anyone can master: they are decisive; they are reliable, delivering what they promised when the promise it, without exception; they adapt boldly, and they engage with stakeholders without shying away from conflict. Based on this breakthrough study of the most successful people in business, Botelho and Powell offer career advice for everyone who aspires to get ahead. Based on research insights illustrated by real life stories from CEOs and boardrooms, they tell us how to: - Fast-track our career by deploying the career catapults used by those who get to the top quickly - Overcome the hidden handicaps to getting the job we want. - Avoid the 5 hazards that most commonly derail those promoted into a new role. For everyone who aspires to rise up through the organization and achieve their full potential, The CEO Next Door is an essential guide.

Alyson Tinsdale is giving her son the childhood she never had: a stable family, loving home, and a great school in a safe neighborhood. When they move into the home of her dreams in one of Denver's most sought-after developments, Alyson works hard to fit in and impress the other mothers. Bonnie Sloan is the neighborhood matriarch. With her oldest son headed to Yale, and her youngest starting kindergarten, Bonnie is now pursuing her own long-held political aspirations. The personal pressures and community conflicts ratchet with every passing day, but it's when a thirteen-year-old boy is found dead beside the lake, that simmering tensions boil over into panic. Those who've heard T. R. Reid's weekly commentary on National Public Radio or read his far-flung reporting in National Geographic or The Washington Post know him to be trenchant, funny, and cutting-edge, but also erudite and deeply grounded in whatever subject he's discussing. In *Confucius Lives Next Door* he brings all these attributes to the fore as he examines why Japan, China, Taiwan, and other East Asian countries enjoy the low crime rates, stable families, excellent education, and civil harmony that remain so elusive in the West. Reid, who has spent twenty-five years studying Asia and was for five years The Washington Post's Tokyo bureau chief, uses his family's experience overseas--including mishaps and misapprehensions--to look at Asia's "social miracle" and its origin in the ethical values outlined by the Chinese sage Confucius 2,500 years ago. When Reid, his wife, and their three children moved from America to Japan, the family quickly became accustomed to the surface differences between the two countries. In Japan, streets don't have names, pizza comes with seaweed sprinkled on top, and businesswomen in designer suits and Ferragamo shoes go home to small concrete houses whose washing machines are outdoors because there's no room inside. But over time Reid came to appreciate the deep cultural differences, helped largely by his courtly white-haired neighbor Mr. Matsuda, who personified ancient Confucian values that are still dominant in Japan. Respect, responsibility, hard work--these and other principles are evident in Reid's witty, perfectly captured portraits, from that of the school his young daughters attend, in which the students maintain order and scrub the floors, to his depiction of the corporate ceremony that welcomes new employees and reinforces group unity. And Reid also examines the drawbacks of living in such a society, such as the ostracism of those who don't fit in and the acceptance of routine political bribery. Much Western ink has been spilled trying to figure out the East, but few journalists approach the subject with T. R. Reid's familiarity and insight. Not until we understand the differences between Eastern and Western perceptions of what constitutes success and personal happiness will we be able to engage successfully, politically and economically, with those whose moral center is governed by Confucian doctrine. Fascinating and immensely readable, *Confucius Lives Next Door* prods us to think about what lessons we might profitably take from the "Asian Way"--and what parts of it we want to avoid.

America's next favorite Australian author! "With jaw-dropping discoveries and realistic consequences, this novel is not to be missed. Perfect for lovers of *Big Little Lies*." —Library Journal, starred review Small, perfect towns often hold the deepest secrets. From the outside, Essie's life looks idyllic: a loving husband, a beautiful house in a good neighborhood, and a nearby mother who dotes on her grandchildren. But few of Essie's friends know her secret shame: that in a moment of maternal despair, she once walked away from her newborn, asleep in her carriage in a park. Disaster was avoided and Essie got better, but she still fears what lurks inside her, even as her daughter gets older and

she has a second baby. When a new woman named Isabelle moves in next door to Essie, she is an immediate object of curiosity in the neighborhood. Why single, when everyone else is married with children? Why renting, when everyone else owns? What mysterious job does she have? And why is she so fascinated with Essie? As the two women grow closer and Essie's friends voice their disapproval, it starts to become clear that Isabelle's choice of neighborhood was no accident. And that her presence threatens to bring shocking secrets to light. *The Family Next Door* is Sally Hepworth at her very best: at once a deeply moving portrait of family drama and a compelling suburban mystery that will keep you hooked until the very last page.

From the creator of *Ladybug Girl* and *Three Bears in a Boat*, this funny and endearing tale of friendship found and tested is perfect for fans of *The Adventures of Beekle*. But the monster's tuba music is loud. Really loud. WAY. TOO. LOUD. Before the boy can think, he hurls a water balloon at his neighbor to get him to stop. An epic water-balloon fight ensues, until the boy—fed up, spent, done—cuts the pulley line. No more note-passing. No more monster. Can the boy and monster ever be friends again? Does the boy even want to? Maybe he just needs to see things from a new, unexpected perspective.
